Vol. 77, No. 183 | The Associated Press, International News Service, United Press, The Brush-Moore State Wire | MARION, OHIO, SATURDAY, JULY 3, 1954 | 20 PAGES | 5c Single Copy | 30c Weekly by Carrier

CUB SCOUTS PHILIP PREUNINGER, Steven Fretz and David Dickey of Cub Pack 14 re-enact the scene from the famous painting by A. M. Willard, "Spirit of '76," which depicts two drummers and a fifer of the Revolutionary War marching forward with determination to win America's freedom. Independence Day, 1954, comes 178 years after the Declaration of Independence was adopted by the Continental Congress in Philadelphia on July 4, 1776. This year, as in preceding "Fourths," Americans give thanks that the Founding Fathers had the courage to fight for independence and the wisdom to form a just and enduring government once the battle was won.

## Eisenhower Farm Plan Victory Seen

### Proposal for Flexible Price Supports Wins Approval in House

WASHINGTON (AP) — Senate supporters of the Eisenhower flexible farm price support prgoram took heart today after a notable administration victory in the House.

"We are well on the way to completing a farm bill that the President can accept," said Sen. Aiken (R-Vt), chairman of the Senate Agriculture Committee.

**Opponents Surprised**

At the same time, Senate advocates of continued high, rigid price props for basic field crops appeared taken aback — for the moment at least—by House approval yesterday of farm legislation embodying the flexible principle, although in a narrower range than that sought by the administration.

Sen. Young (R-ND), a leader of the high support faction in the Senate, conceded he was "greatly surprised" by the 58-vote margin by which the House late yesterday approved, 228-170, a sliding scale of price floors ranging from 82½ to 90 per cent of parity for five basic crops — wheat, corn, cotton, rice and peanuts. A general farm bill—of which the price support section was a key part—was passed on a voice vote.

Continued 90 per cent supports for a sixth basic crop—tobacco—was not at issue because the Eisenhower administration already had agreed to such an arrangement in view of tobacco's special problems.

**Administration Victory**

House acceptance of the flexible support principle was regarded as an administration victory, even though the range approved was only half the 75-90 per cent sought by President Eisenhower and Secretary of Agriculture Benson. The compromise was offered with the backing of House Republican leaders.

Parity is a farm price standard said by law to be fair to growers in relation to their costs.

Commenting on the House development, Young said in an interview a bipartisan Senate bloc backing continued rigid supports at 90 per cent of parity probably is stronger than the House coalition that was beaten on the issue.

But, Young wondered: "Are we strong enough to win?"

The price support issue promises to play a major role in the November struggle between the Democrats and Republicans for control of Congress.

Congress in 1949 voted to switch to flexible price supports from the high, rigid system which has been in effect since early World War II days. However, the changeover has been postponed from time to time and now is due to become operative at the end of the 1954 crop year.

The House Agriculture Committee had voted to continue 90 per cent supports for another year. So did the Senate Agriculture Committee. But the house Group's recommendations were upset yesterday.

## *Bearded Riders Stop in City*

IT WAS A HOT DAY and "the horses needed water bad" as two Fostoria "frontiersmen" rode through Marion Friday evening mid-way of their trip to Columbus on a mission to see Gov. Lausche.

Here Ray Souder, left, and Al Rhoad watch as their mounts and pack horse take on a fresh supply of cool water at a S. Main St. filling station. The trip is a part of the Fostoria Celebration July 11-17.

Rhoad and Souder mounted up at 5 a.m. Friday morning for the 100-mile ride to Columbus. They rode continuously except for short rest stops. One was at Bucyrus for an hour and one-half, the other at a roadside park north of Marion on Route 23 for two hours.

They expected to camp out near Waldo for the night and continue their journey at about 4 a.m. this morning.

They were to meet the governor at the state house in Columbus at 3 p.m. today to present to him a derby hat and a badge making him an honorary "Brother of the Brush."

The "Brush" organization was set up as the official centennial committee—possibly because all the men in Fostoria are wearing "quite a brush pile" on their faces. Most of the men haven't shaved for several weeks, according to the riders.

Following completion of their "mission" in Columbus, the two men expected to start the return trip home, camping out north of Columbus tonight and continuing on their way Sunday. They expect to pass through Marion Sunday on the ride back home. Both plan to take part in a rodeo as part of the centennial celebration next Saturday.

## Individuals, Corporations Granted Cuts

### Contains Nearly All Of Administration's Provisions for Relief

WASHINGTON (AP) — President Eisenhower was a big step closer to a substantial victory on 1954 tax legislation today after overwhelming Senate approval of his general tax overhaul bill.

Treasury Department experts who have been battling for the administration's tax viewpoint before Congress for months told a newsman they were well satisfied with the Senate action despite some setbacks.

**Passes 63 to 9**

The Senate passed the bill 63 to 9 yesterday after five days of often heated debate and two months work on the 875-page measure by the Senate Finance Committee, which wrote 430 pages of amendments. The complicated legislation is the first general revision of the maze of federal tax laws since 1876.

Included in the Senate bill, as in the version already okayed by the House, were nearly all the relief provisions sought by the administration. In addition, the Senate beat back four separate attempts to add a general income tax cut to the bill, strongly opposed by the Treasury because of the heavy loss of revenue involved.

The conference between the Senate and House on their somewhat differing measures probably will get under way July 12 after the staff experts have had time to prepare line-by-line comparisons.

**Various Tax Cuts**

As passed by the Senate, the bill contains various tax cuts for corporations and individuals totaling some $1,300,000,000 in the next year. The House version embodies a $1,400,000,000 reduction.

The cost to the Treasury would be largely offset the first year by a provision extending the 52 per cent corporation rate to April 1, 1955, rather than letting it drop to 47 per cent. This would yield an extra $1,200,000,000.

The major change made by the Senate, and the issue likely to cause the biggest fight in conference, was to knock out of the bill most of the proposed relief to stockholders on dividend income.

The Senate left in the bill only the $50 exemption of such income from taxation. As passed by the House, the provision would give this exemption and also permit a stockholder to deduct from his tax 5 per cent of his dividend income in the first year of the bill; from the second year on, he could get exemption on $100 of dividend income and deduct from his tax 10 per cent of such income above $100.

Sen. George (D-Ga), senior Senate Democrat among the conferees, predicted the administration would

## CIO Telephone Workers End 2-Day Walkout

### Tentative Agreement Reached on Contract With Western Electric

NEW YORK (AP) — A tentative agreement was reached early today between Western Electric Co. and 17,000 CIO telephone equipment installers to end a nationwide walkout which started two days ago.

**Joint Statement**

Following a one-hour negotiating meeting, officials of the company and the CIO Communications Workers of America issued a joint statement saying:

"The parties are in tentative agreement and will meet today at noon EDT to sign the contract, following which time the terms of the contract will be announced." There was no further comment from the union or management.

The CWA struck Thursday in 44 states and the District of Columbia in a dispute over wages, grievance machinery, and provisions covering the transfer of employes. Not affected by the walkout were Maine, New Hampshire, Vermont and Montana, where the phone companies do their own installation and maintenance work.

The CWA contract with Western Electric, manufacturing arm of the Bell Telephone System, expired May 2. Repeated negotiations failed to produce agreement.

**Wanted Pay Boost**

The CWA has demanded a six-to-eight-cent an hour pay boost, while the company has offered four to seven cents.

Current pay averages $1.86 an hour.

Festivities Planned

## *Local Businesses Close In Celebration of Fourth*

Marion joins the rest of the nation tomorrow and Monday in observing the Fourth of July holiday. This year marks the 178th anniversary of the signing of the Declaration of Independence.

Actually the first Independence Day celebration was held on May 15, 1776 and just like any "old-fashioned" Fourth of July consisted of patriotic speeches, fireworks, flag-waving and parades. That first celebration was held at Williamsburg, Va.

—:—

IN MARION THIS YEAR, stores, offices, factories, the courthouse, city building and other governmental offices will be closed Monday, which is the official holiday since the Fourth falls on Sunday. Many industrial plants were closed today and will not resume production until Tuesday to give employes an extended holiday.

At the postoffice, only special delivery letters will be distributed Monday. The lobby will be open and a skelton crew will be on hand both Sunday and Monday to handle outgoing mail. There will be no window or carrier service.

—:—

MANY MARIONITES will take to the highways for weekend trips to visit friends and relatives in other cities and states. Many others, mindful of the expected heavy highway traffic and the predicted highway death toll, are planning to remain close to home most of the weekend.

To help insure those who do take trips a safe journey, both the city police and the state highway patrol are "blanketing" the streets and highways with cruisers and patrol cars in an effort to cut down traffic violations and accidents.

Those who remain at home over the weekend will find many activities in the offing to occupy their time.

The Marion Country Club will stage its annual fireworks display for members Sunday night, just after dark. Saturday night a buffet supper will be held along with the drawings for a golf tournament Sunday night.

—:—

PICNICKERS WILL FIND nearby parks and recreation areas open for their pleasure. The state park at Mount Gilead and the recreation areas at the Delaware Dam Reservoir will all be open as will parks in Upper Sandusky, Prospect, Bucyrus, and the Marion City Parks.

Swimming pools in the area will

## *Parades and Fireworks To Mark Holiday Events*

By The Associated Press

Throughout the nation this weekend, in big cities and small towns, Fourth of July celebrations will mostly follow the old-fashioned formula of a parade, fireworks and patriotic speeches.

But behind the speeches will lie the very modern problems of an uneasy atomic age, more awesome than any that could be imagined when American independence was declared 178 years ago.

Celebrations at some of the nation's most historic shrines however, will keep alive an appreciation of the country's early struggles and hardships and of the courage required to overcome them.

There will be ceremonies at Valley Forge, near Philadelphia, where prospects for American success in the War for Independence reached their lowest ebb.

Washington Memorial Chapel there acting Gov. Charles E. Johns of Florida will speak.

There will also be other ceremonies at Independence Hall in Philadelphia, home of the Liberty Bell.

Fireworks will light up Boston's famed common, where independence was preached and stoutly defended. And several blocks away at the old state house, now a historical museum, the Declaration of Independence will be read by an honor student from Boston Latin School, the oldest school in the country.

A mammoth fireworks display will be set off July 5 at the grounds of the Washington Monument in Washington D.C. This annual show usually draws thousands

## Air Force Team Probes Crash of Plane Into Houses

UTICA, N. Y. (AP)—A special Air Force team today spearheaded an investigation of the wreckage of a jet fighter plane that crashed into a hamlet crossroads near here yesterday and killed four persons on the ground.

The fuel in the rocket-laden F94C Starfire apparently exploded and set fires that destroyed an automobile and two houses in tiny Walesville, about 11 miles southwest of Utica. None of the rockets exploded.

The plane's pilot, Lt. William E. Atkins, 24, of Dutton, Va., and the radar observer, Lt. Henry F. Coudon, 26, of Perryville, Md., bailed out before the crash and escaped injury.

Killed were the three persons riding in the automobile, Stanley Phillips, 38, his wife, Florence, 32, and their son, Gary, 11, all of nearby Hecla, and Mrs. Doris Monroe, 28, occupant of one of the houses.

## Bob Hope Plans Lodge Near Johnsville Village

JOHNSVILLE — A vacation lodge near this Morrow County village of 200 will be built next year by Comedian Bob Hope who wants "to get away from it all and to take it easy."

Plans for the lodge were disclosed by his wife on a visit to Bob's brother, Fred, who operates a motor court on Route 42 here. Bob was unable to make the trip here because of conflicting personal appearances. His wife and four children have been vacationing here this week.

Raps French Move

## *Indochina Retreat Finds U. S. Critical*

By JOHN M. HIGHTOWER

WASHINGTON (AP)—The United States has instructed its diplomats at Paris, Geneva and Saigon to express grave concern to French and Vietnamese government leaders over the apparent abandonment to Communist forces of anti-Communist populations in the Red River Delta of Indochina.

The action was taken, officials said, on humanitarian grounds. An Associated Press dispatch from Singapore yesterday reported that French troop withdrawal south of Hanoi had put an additional four million Vietnamese under Red rule.

The French command at Hanoi announced their troops have evacuated five fortified cities and 2,000 square miles of rich, heavily populated rice land in the southern part of the Red River Delta.

The State Department spokesman said Thursday that the United States had not been informed by the French government of the withdrawal operation. Yesterday the spokesman, Press Officer Henry Suydam, disclosed that the United States was asking Paris for information about its operation in Indochina.

However French diplomats here said information about the proposed troop withdrawal was given top American, British, Australian and New Zealand military officers during confidential talks nearly a month ago. No one at the meeting, the French said, made any move to offer reinforcements.

Suydam said the United States had a direct interest since it is a member of the Geneva Conference where French representatives are negotiating with Communist representatives for an Indochina settlement.

The new American diplomatic moves and the public disclosure of them here represented expressions of U. S. government disapproval of the course being taken by the Mendes-France government of France. Premier Mendes-France took office two weeks ago with a promise to get an Indochina peace or resign by July 20. Shortly afterward he conferred in Switzerland with Red Chinese Chou En-lai.

## *French Report Strategic Loss South of Hanoi*

PARIS (AP)—The French News Agency said in a dispatch from Hanoi tonight that French Union Forces had evacuated Phu Ly, a highly strategic communications center about 35 miles south of Hanoi. Earlier it had been reported under attack by the Communist-led Vietminh.

The agency said the withdrawal was part of the French move to withdraw from the southern sector of the rich Red River delta area.

Earlier dispatches by the French News Agency had quoted the French high command as saying that the French-Vietnamese forces had been engaged in battle with three Vietminh battalions which had moved out from their positions in the limestone hills to attack the town.

Phu Ly is a road junction town of about 5,000 inhabitants. The French News Agency dispatch said munition stocks which could not be evacuated from the town had been destroyed. The bridge across the Day River also was reported blown up.

Military sources in Hanoi were quoted as saying that the Vietminh apparently was concentrating its forces in the Phu Ly area in an effort to cut French - Vietnamese columns moving northward in their withdrawal.

**CONTRACT APPROVED**

WEIRTON, W. Va. (AP)—The Independent Steelworkers Union, representing 11,000 production workers, approved today a contract offer from Weirton Steel Co. containing a 12-cent hourly package increase.

## New Earthquakes Rock Philippines

MANILA (AP)—Rescue squads dug through the rubble of two earthquake-wrecked cities for dead and injured today as lighter but sharp aftershocks spread fresh terror throughout the central Philippines.

Broken communications made it impossible to get an accurate picture of casualties and property damage in the southern Luzon area where yesterday's quake created havoc.

Latest reliable figures showed 12 known dead, four missing, 24 seriously injured and 100 treated for minor injuries.

## Role of Armas In Guatemala To Be Studied

### Rebel Leader To Fly To Capital; Dissension Reported in His Army

GUATEMALA (AP) — Rebel leader Col. Carlos Castillo Armas planned to fly to this welcome-geared capital today to discuss his role in Guatemala's new anti-Communist government. But dissatisfaction in the ranks of the leader's "Liberation army" dimmed the triumph of the occasion.

Castillo acknowledgew at his Chiquimula headquarters yesterday that "most of my men are not satisfied with the agreement reached in San Salvador."

The peace pact, signed with Col. Elfego Monzon in the capital of neighboring El Salvador, patched together a five-man junta. Monzon was allowed to regain on as gov-

Considers Holding Up Funds

## *Knowland Would Force Review of Foreign Policy*

WASHINGTON (AP) — Senate Republican leaders today weighed a move to limit foreign aid appropriations to six months and thus force a new appraisal of America's foreign problems next January.

**Knowland's Idea**

Confirming that such a proposal was being discussed, Sen. Knowland of California, the GOP floor leader, said this was only one of several possible actions Congress might take to oppose Chinese Communist admission to the United Nations.

"I think you can be safe in assuming that there is going to be affirmative action in this session of Congress on this issue," Knowland said in an interview.

He said another possibility might be an amendment to the foreign aid authorization bill to withdraw U.S. financial support to the U.N. if any nation ever declared an aggressor — as Communist China was in Korea — were taken into membership.

Knowland and Sen. Lyndon Johnson of Texas, the Democratic leader, have called for the withdrawal of the United States from the U.N. if that body accepts the Peiping regime as members despite American opposition. And in debate which sprang up in the Senate yesterday, Johnson declared: "Our basic foreign policy is at the crossroads."

**Foreign Aid Bill**

The development foreshadowed a lively discussion when the foreign aid bill, now before the Senate Foreign Relations Committee, comes up for floor debate.

Secretary of State Dulles, meeting with the committee in closed session yesterday, reportedly declined to commit the administration on the U.N.-withdrawal issue although he has previously made clear he is opposed to admitting Red China.

Dulles was said to have indicated coolness toward such a drastic step as leaving the U.N., but to have qualified his answer by saying some circumstances might arise under which such action would be justified.

A high government official, who declined to be quoted by name, said the administration is working diligently behind the scenes to line up support within the U.N. General Assembly to prevent the issue from coming to a vote there.

# Painting Helps Brighten Wood Areas in Home

## Windows, Baseboards, Doors and Stairways Aided With New Coats

Few things you can do yourself inside the house can brighten it up as much as some paint on the woodwork.

With relatively little effort, a room can be transformed into a gayer and more interesting place by putting finishes on the doors, baseboards and windows. The same goes for the stairways—if you have them.

All you need is to invest a few dollars for some good finishes and paint brushes—the only tool which can do an adequate job on this type of surface—plus some time and talent in choosing the colors and doing the work.

You can use the newer synthetic or "orthodoz" paints, enamel, varnish stain or clear varnish on your woodwork—depending on the final impression you want to produce. And if you chose the proper brush for each job, you should be assured long-lasting, attractive results. In this connection, the Paint and Varnish Brush Division of the American Brush Manufacturers Association makes the following helpful suggestions:

For baseboards and door frames, use a 2½ or 3-inch brush.

To paint around window sash and other small trim, a narrow sash brush should be used, probably 1½ or 2 inches wide.

A varnish or enamel brush, 2½ inches wide with chiseled edge is recommended for these finishes.

Before you start, remove all the hardware that is in the way. Then be sure that the woodwork is clean. Grease, oil or wax can be removed with turpentine.

After the surface is dry, sand it smooth. Fill putty cracks and nail holes with wood putty; sand lightly again after the fillers have dried, so that your wood surfaces are nice and smooth.

Now comes an important thing to do. Carefully read the directions on the can of the finish you are going to use. This cannot be overemphasized—yet it is something that is constantly overlooked.

Enamels and paints must be stirred well, but varnishes should be neither stirred nor shaken, as to do so might cause air bubbles that would prevent you from doing a good job.

Now you are ready to paint. Dip the brush into the can for about a third the length of the bristles—never more than halfway. Brush first across the grain of the wood, then brush with the grain. Never pile your finish on thick—two thin coats will do better than one thick one.

Millions of American homes are of wood on the outside—and we well know the importance of keeping them well painted. Furthermore, it is estimated that painting a house adds about 12 per cent to its value.

Not everybody can paint a house on the outside—but they can do something about the woodwork in on the outside—but they can do something about the woodwork indoors, as well as the walls and ceilings. In doing so, they can add individuality to the home, also do much to protect the wood and thus also add value to the house. And besides, it's something you can do at any time of year.

Growing Pains

# Regular Work Pays Off In Garden Maintenance

By ALBERT S. FULLING
Associated Press Writer

The last time you took the family car to the service station for a grease job and oil change, you made sure all points were checked — engine, body, battery, tires, brakes and lights.

This was normal precaution to keep the auto in top shape and to make it last a few miles more.

You're the service station operator in your garden. Now that you've got most of the plantings in the ground, you're in a seven-day business that pays dividends if you work at it, or you'll go bankrupt gardenwise quickly.

—:—

THE TOOLS ARE simple but necessary — the mower, sprayer, hedge shears, hoe, rake, trowel or spade. Then there's the sharp eye for garden trouble, and a little back to be used when necessary, plus constant attention to the job.

Take the large area project first—the lawn. You've got to keep it mowed regularly and weeded. It's about time to set the mower blades high enough to help prevent too early drying out under hot summer sun. If the Japanese bettle problem is present, one of the chlordane compounds or DDT will do the trick.

After going over the lawn with the mower, there is the hand trimming of grass to do around the trees, the paths and driveway to edge to keep your place up to par.

—:—

FLOWER AND VEGETABLE plantings have to be checked with the greatest care, with weeds and bugs the prime object of scrutiny.

When cultivating, do it shallowly —from a half-inch to an inch is enough. The average plant has shallow roots. If you mulch beds with grass clippings or peat moss, you'll help keep the weeds down, the soil cool, and prevent caking in dry spells.

If the weeks should get a big start while you were away or busy, cut them off instead of yanking them out if they are close to the roots of good plants. This way you'll prevent disturbance to good growth.

Some gardeners I know are so wary of the highly poisonus spray sand toxic materials, they hesitate to spray at all. For them, rotenone is a safe insecticide, and it does the job in most cases. Apply it in dust or liquid (mixing an ounce of rotenone in a gallon of water).

—:—

ONCE A WEEK is the spray schedule—and more often if there is heavy rain.

Keep the blooms picked, harvest the vegetables as they come into full growth, and then haul out the dead plantings. If they are insect ridden, burn them — otherwise, feed the compost pile.

Keep up the compost pile project, spreading a bit of lime every six inches or so of compost material. Keep the pile wet. The compost pile is your pot of gold at the end of the garden rainbow. It's the least expensive item, and the most valuable one of your outdoor assets.

Spray fruit trees according to schedule if you want fruit — and if you don't have the timetable and ingredients, your garden shop does.

—:—

IF YOUR EVERGREENS give off a yellowish tinge, you've probably got a red spider problem. Forced spray with the hose, or a light dusting with sulphur will help combat these pests.

Fertilize your plantings occasionally to give them a boost.

Watch the tall growing plants — whether flower, vegetable or shrub, and stake them where necessary to prevent their toppling when they get tall.

A tall order? Maybe. But you've got the garden now, and you've got to keep it up — or dig it up. And this you'd never do, no more than you'd junk the family auto rather than give it the needed service station treatment.

### COOL SLEEPING

If you want to sleep well this summer, take a tip from the motel industry, which is a big user of mineral wool — also known as rock wool and glass wool. Your bedrooms can be a lot cooler if ceilings and sidewalls are insulated with mineral wool.

# Space Saving Seen in Latest Kitchen Plans

While the saving of steps for the homemaker would seem to be the major objective of modern kitchen design, the saving of space in making the installation runs a close second in importance.

This was clearly indicated by kitchens designed by some of the nation's top experts in home planning and engineering and displayed at the National Plumbing and Heating Exposition in Washington recently.

The modern kitchen combines the home laundry equipment, water softener and domestic water heater with the food preparation and family dining area in various ingenious arrangements making liberal use of room dividers.

In one of the most distinctive of such divided kitchens shown at the Exposition, the divider between the utility-laundry section and the food preparation-dining area, took the form of a breakfast bar with revolving stool seats.

Kitchen planning, of course, revolves around the sink as the center of food preparation, the Plumbing and Heating Industries Bureau emphasizes. Modern porcelain-enameled sinks come in a wide range of attractive pastel shades—blue, yellow, green, ivory, suntan, and gray, to name a few of the more popular colors, as well as white.

There is plenty of drainage area flanking both single and double bowl cabinet sinks. All are equipped with gleaming chromium-plated brass fittings — combination faucets with swivel spouts, and combination crumb and sink strainer drains.

As an optional feature, most types may be equipped additionally with a hose-connected brush and spray attachment for washing dishes. These units can be loaded with liquid detergent, which is dispensed at a rate governed by the amount of hot water passing through in any given time interval. The aerating type of faucet nozzle with which many sinks are fitted today effectively prevents water from spattering on the floor.

# Water Heater Important for Summer Time

## Increase in Showers, Baths Calls for Large Capacity, Bureau Says

Paradoxical as it may seem, the demand for hot water reaches its peak during the summer months, due to the increased use of water for baths and showers.

Thus it is during the summer months that the inadequacy of much of the existing water heating equipment becomes evident, says the Plumbing and Heating Industries Bureau.

Years ago a 20-gallon water heater was considered big enough for the average family. More recently a 30-gallon water heater was regarded as the minimum size.

Today, with the increasing demand for hot water in the American home, the 30-gallon heater is inadequate in many homes, according to present standards, the Bureau says.

Manufacturers of gas-fired water heaters, in an effort to enable householders to select water heaters of adequate capacity, have published a gas water heater sizing chart. This chart shows the minimum size of water heaters recommended for family needs.

According to this chart, a house with one or two bedrooms should have as a minimum a 30-gallon water heater; a house with two or three bedrooms, a 40-gallon heater; a house with three or four bedrooms, a 40-gallon heater; a house with four or five bedrooms, a 50-gallon heater; and a house with four or five bedrooms and three or four bathrooms, a 75-gallon water heater. All of these are minimum recommendations.

If an automatic washer or dishwasher is used, the next larger size should be selected.

# Vanity Popular In Bathrooms

## New Models Relieve Bedroom Congestion

One of the main reasons why the modern bathroom is able to present so much eye-appealing beauty is the absence of exposed piping, states the Plumbing and Heating Industries Bureau.

Long ago the bathtub piping vanished from sight, behind the fixture shell and into the wall. Now virtually the only remaining piping exposed to view is the trap under some free-standing lavatories, which is inconspicuous.

But, even this can be hidden by setting the lavatory into a countertop. The result is a vanity lavatory, ultimate note of elegance in the modern bathroom.

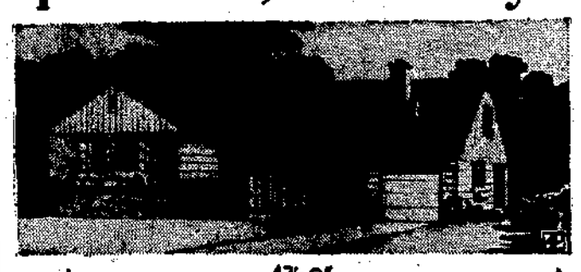
Latest models in vanity lavatories were displayed to the public at the National Plumbing and Heating Exposition in Washington recently. Plumbing contractors everywhere report an ever-increasing demand on the part of women for this fixture. A vanity lavatory converts the bathroom into a dressing room as well.

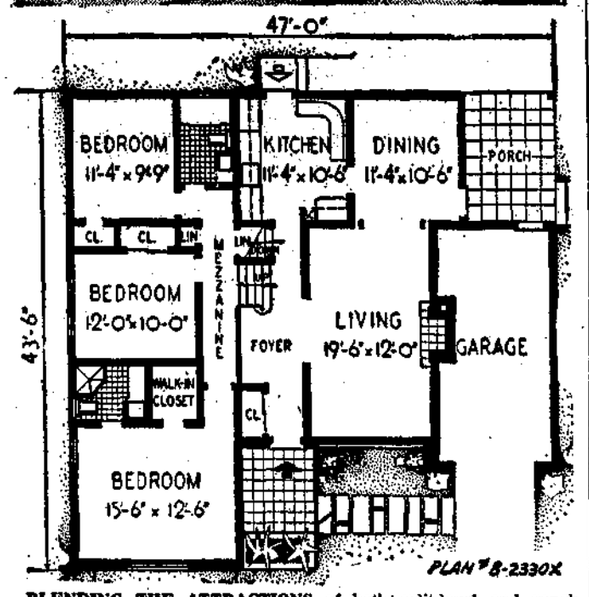
The vanity lavatory is nothing more or less than the boudoir dressing table moved into the bathroom, with the added advantage of hot and cold running water. Its increasingly evident that the bathroom is taking over the function of a dressing room as it relieves the bedroom of much unnecessary clutter. In the modern bathroom-dressing room arrangement, roomy walk-in closets provide plenty of storage space for clothing and bathroom linens and supplies.

Additional storage space is provided by the drawers in a vanity lavatory beneath the countertop. Some types have built-in clothes hampers, as well as a compartment with its own lock for the safekeeping of medicines and drugs out of reach of small children.

Vanity lavatories of the prefabricated type are sold in sections. One section holds the lavatory itself, while additional sections can be installed to extend the countertop as far as space permits on either side.

# Split-Level, Ranch Style





**BLENDING THE ATTRACTIONS** of both split-level and ranch house styles, this design introduces a mezzanine with open railing. The house has a one-story appearance on the outside yet bedrooms are removed from the ground floor. This is Plan B-2330X by Alwain Cassens Jr., architect, 145 S. Franklin Ave., Valley Stream, N.Y. The house covers 1,345 square feet without garage and porch.

# First Aid for the Ailing House

By ROGER WHITMAN

**Q:** Our concrete porch floor has so many ridges across it and is so rough that it is impossible to keep paint on the surface. It wears off the high spots soon after application. What method will I use to obtain a smooth surface

**A:** If the floor is not very large and the ridges are not high, it should not be too much of a job to remove them by rubbing with a coarse abrasive stone, or a mason could smooth it with a portable grinder. To avoid filling the stone with paint it would be wise to scrape off as much as possible so that the rubbing will be on the cement ridges themselves.

**Q:** If creosote wood preservative is used inside of a flower box would this stop the growth of plants?

**A:** It is not advisable to use a wood preservative on the inside of a flower box, beeause most of these compounds are toxic to plant life. The best protection is to line the box with sheet metal, or coat the wood with hot tar or a liquid asphalt.

**Q:** We have a four-room apartment and heat the rooms with a circulating space heater. During the winter months, we found that all metals, such as refrigerator handles, chrome on the kitchen set, and any other metals became discolored. What can I do to prevent this? Also can you tell us what caused this condition? I have tried various protective metal coatings with little or no help.

**A:** Evidently the heater is not connected to a chimney or vent and since the after-products of gas and oil combustion are vaporous, the air in the apartment becomes heavily laden with moisture. This excessive moisture naturally would affect various metallic surfaces. Try to arrange with your landlord to vent your heater to the outside.

**Q:** I had finished a new panel door with one coat of shellac and four coats of varnish before my home was plastered. After this work was done there was considerable sweating and the seams on the door turned black. The varnish has peeled in many spots. Since the door needs to be refinished I would like to have your suggestion on the procedure to remove the discolored spots.

**A:** After removing all of the old finish down to the bare wood, bleach out the discolored wood by applying a liberal amount of a hot saturated solution of oxalic acid. Or, you can use a prepared wood bleach. The oxalic acid must be rinsed off with clear water and the wood allowed to dry. Smooth the surfaces with "000" sandpaper, wipe off the dust and refinish as desired.

# $9,037 in Court Fines Distributed To City and County

A total of $9,037 was paid out to city, county and state treasuries from fines, costs, bond forfeitures and other charges made in Marion Municipal Court during June.

In a monthly summary issued today, Mrs. Clara Fleck, clerk, reported that a total of $6,883 was paid to the city treasurer from both civil and criminal cases.

Of this total, $1,781.50 collected in criminal division from traffic offenses was earmarked for street repair and maintenance. Another $4,845 from cases in the criminal division went to the city general fund. The balance of $256.52 paid the city treasurer for the general fund was collected in the civil division of the court.

Payment to the state treasurer as half-share of fines, costs and bond forfeitures from state highway patrol traffic cases was $1,781.50.

The county treasury received $324 and the sheriff's department was paid $49 in turnkey and mileage fees.

# Sawdust Mulch Aids Gardener

## Waste Timber Product Hinders Weed Growth

A waste product of the timber industry is proving to be of great value to the gardener. Agricultural scientists have given their endorsement to the use of sawdust as mulch.

All mulching materials do at least three things: they hold moisture where it will do the most good; they keep the soil in place and loose and cool; and they discourage weed growth. Sawdust is superior in many respects because it is easy and clean to handle, free of weed seeds and inexpensive.

Dry weather makes this almost a life and death matter in commercial vegetable gardens, as well as for the vegetables, flowers and shrubs of the home-owner. Generous use of sawdust mulch conserves what moisture we get, and increases the productive capacity of the soil.

The head of the department of horticulture at Virginia Polytechnic Institute, Prof. Wesley P. Judkins, has been conducting intensive research into this subject and his reports not only disprove stubbornly held beliefs that sawdust is harmful, but stress its beneficial qualities.

"The use of sawdust as mulch is too valuable a practice to be restricted by unfounded prejudices and half-truths," Judkins said. "Sawdust does not cause the soil to become acid . . . Its final effect is to help maintain or increase basic reactions.

"Nor does it contain toxic substances which will inhibit plant growth," he said. "When mixed with the soil, after use as mulch, it may cause a slight nitrogen deficiency, but balance is readily restored by the use of a predominently nitrogen fertilizer."

# Home Office Fashioned From Two File Drawers

An attractive "home office" for a housewife is made by combining two file drawers (for helpful magazine articles and household papers), a large shelf (which serves as a desk) and a series of bookshelves attached to the wall above the desk-surface. The shelves (for cookbooks) can be concealed with a roll-up bamboo curtain.

Painted a robin's egg blue to match the adjoining wall, the shelves and file drawers set off the pink coral enamel used on the desk shelf and the vertical surface behind it. Also in the lovely coral tone are the waste basket and the cushion of the white enameled desk chair.

Block View From Outside

# Curved Window Panes Give Privacy to Homes

By DAVID G. BAREUTHER
AP Real Estate Editor

There's always something new, it seems, for the improvement of our homes. Curved window panes are one of the latest and most sensible inventions. Their purpose is to block the view from the outside looking in, without interfering with the view from the inside looking out.

They work out this way, too the cartoonists' criticisms of life in a goldfish bowl behind a picture window A man can loaf in his undershirt, a beard on his chin and a suspicious looking glass in his hand if his house has curved window panes.

By bulging slightly outward, these panes produce such a dazzle of reflection on the outside that passersby can't see into your windows, yet when you look out of the windows there is no distortion — nothing like looking through a magnifying glass.

As a matter of fact, there's nothing new about convex clear glass for clock and watch crystals. They have been bulging for 20 years or more. Now the manufacturers of curved window panes expect window glass to follow the same trend as clock crystals.

An exhibit house on a main highway on the outskirts of Hartford, Conn., was fitted up with curved panes recently and the striking appearance stopped the traffic. People wanted to know how the effect was achieved.

—:—

SINCE PAINT ROLLERS have made it so easy for the amateur to do his own decorating and to get a flawless job even on a ceiling, the problem of splattering and dripping has come up. Well, necessity as the mother of invention is such a well established bromide that a Rochester, N. Y., manufacturer jumped at this splattering problem and devised a plastic shield to stop it

These shields snap on any paint roller, catch the drippings, save your paint and your hair. You should be able to find them in any well-stocked paint or hardware store.

—:—

REMOVING PAINT from your hands is no simple matter. Calloused mitts can be washed in turpentine, mineral spirits, benzine, etc., but so many of our beautiful women folk have joined this do-it-yourself movement that special creams have been concocted to protect hands. Most of these are applied before the job to make washing easier.

Now a waterless hand cleaner containing skin softening oils, is on the market and it is a whiz at saying nix to dirt. We tried it with paint, grease, ink and carbon It worked. No water Stains wipe off on a rag. The makers claim that it prevents chapping.

—:—

NEW HAND TOOLS include a group of abrasive instruments, which add filing and rasping surfaces to the principle of the sanding block Made of sturdy metal with handles both fore and aft, like a plane, these tools are available in a variety of sizes and shapes to permit correct filing in otherwise inaccessible corners and angles.

A cushioned backing, even for the files, is one of the big advantages. Adjustable handles for hard to reach places are other features. With the handles above the filing surface, the entire file is used—not just port of it. They are among new products being shown in hardware stores.

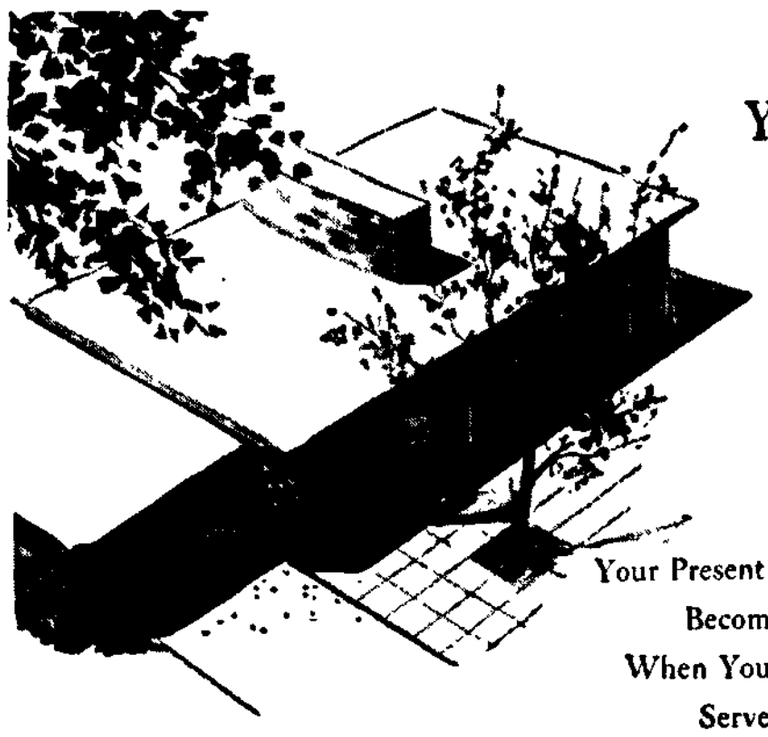
You *Heat* with GAS...
Why Not *Cool* with GAS?



Your Present Heating System* Becomes a Central Cooling System When You Add the Amazing New Servel Summer GAS Air Conditioner

*Connects to Existing Heating Pipes* — If you use a warm air furnace, chances are, existing piping is adequate for your Gas air conditioner You just set it next to your furnace and "stub it in" to the furnace pipes.

*Cools the Entire House* — Never before have you seen a more amazing product. One unit, operated by economical Gas, cools every room in your house. The Servel Summer Gas Air Conditioner is not a window cooler or a night fan It is actually a complete central cooling system.

*Operates on GAS, the Ideal Automatic Fuel* — Just as Natural Gas is ideal for heating, so is it ideal for cooling. It is clean, convenient and economical No other method can cool your home so well for so little. Further still, no gas heating approval is needed for this cooling unit.

*The Price Is Surprisingly Low* — This single unit costs less than the many window coolers that would be necessary to do so thorough a job. You heat your entire house in winter with Gas . . . for real comfort, cool your entire house in Summer with Gas.

*Don't Simmer This Summer* — Now is the time to get all the details (without obligation, of course) on this revolutionary new product.

# YOUR HOME . . . Today and Tomorrow

By DOUGLAS TUOMEY

The ever-increasing cost of substantial building has led to every kind of substitution imaginable.

It is not an exaggeration to say that one could drive through a development or through any new settlement without seeing one of the substantial doors and the heavy hardware we used to associate with a good house. The average homeowner seems doomed to take a very plain house, for a very substantial sum, and them proceed to dress up and improve the property according to his own taste or requirements.

Some time ago, we saw an otherwise very plain door which had been turned into what looked like a tremendously heavy and well-fitted door A close examination revealed the fact that the owner had done a clever job by simulating old-fashioned wrought-iron hinges and straps with pieces of hardboard, cut to those shapes and screwed to the face of the door The pieces were painted black and it was practically impossible to tell them from real, expensive wrought-iron hardware.

If your own house is one of a row, with absolutely nothing to distinguish it from the others, and without any individuality, it might be an excellent idea to spend a bit of time looking at it and trying to figure out just how it could be improved

You will probably find that a slight change in color would do the trick, and by color we do not mean repainting the house but rather to change the color of the door or the shutters. It might be that a small cupola and weathervane on the garage would be an improvement, or perhaps window boxes or shrub-filled tubs on each side of the entrance

# Judge Rules Man Must Go Back to Prison

RAVENNA, Ohio (AP)—A 44-year-old Negro father, whose employers and fellow workers at a Cleveland foundry backed his court fight against extradition, must return to an Alabama prison to serve a life term for a murder conviction

Common Pleas Judge Albert Caris so ruled yesterday in deciding against an objection that Ohio Gov. Frank J Lausche had improperly granted the extradition

The father, Chester A McAfee, escaped from Atmore State Prison in 1951 He came immediately to Ohio, got a job in Cleveland and made a home for his wife and four children near here

He has insisted steadfastly he is innocent of the murder of Albert Noland in 1947 and that he was convicted after a trial that lasted only 15 minutes

# Finishes Designed For Exact Uses of Home Appliances

Finishes for the products that surround you are all especially formulated for the objects they protect and beautify

Whether it's the finish for a refrigerator, a vacuum cleaner, a toy or a telephone, the exact use and handling the product will receive is carefully considered in creating a finish for it

Developing and testing these special finishes naturally calls for the careful work of highly skilled chemists and technicians.

To facilitate their works, the National Paint, Varnish and Lacquer Association has recently developed the "Miniature Paint Factory in a Test Tube" Grinding is accomplished with small steel balls, the size of shot, which are placed in the test tube with the desired components If several samples are prepared, all may be placed simultaneously in a holder which is shaken vigorously by a motor-driven apparatus Results that are satisfactory for test formulations are obtained in a matter of minutes.

# Heavy Silence Blankets Heavyweight Fight Talk

NEW YORK (AP)—A great silence has settled over the heavyweight situation only a fortnight after Rocky Marciano and Ezzard Charles engaged in their blood bath, and what you hear is that they will not fight again this year. The talked-of return in September is said to be definitely out.

It's a delicate subject and neither side likes very much to talk about it, but the obsacle is the same one which has caused Marciano, against his natural instincts, to be one of the most inactive of the champions—the income tax. He would be able to take home only small leavings from another bout this year, scarcely enough to justify his risking the title.

Rocky would like to fight more often, and it isnosecret that the sooner he gets Ezzard in the ring again the better he will like it. But he will never argue the wisdom of the man who made him champion, his manager Al Weill. One report isthat the second edition of one of the greatest heavyweight brawls in history may be held a Miami in February.

---

There appears no chance whatever that the two major leagues will do anything more important than play a ball game at Cleveland. Hank Greenberg's proposal that American and National League clubs play a certain number of scheduled games against each other during the regular season as a means of stimulating new interest in the game has drawn almost a blanket blasting from Hank's fellow magnates.

Probably the chief fault being found with the plan is that it would throw into the discard all batting and pitching and fielding records that have been set over the long years—make them meaningless in the future.

Another objection nearly as pungent is that the two pennant winners might meet in a final series just as the regular season ends, and one of them give the other a frightful mauling. Nobody would want to go to the World Series.

**MORRAL LOSES**

The Claridon - Caledonia - Martel team defeated Morral, 9-2, Thursday in a Marion County Teen League baseball game at Claridon. Jerry Gorby and Irvin Hunt limited Morral to five hits while the winners collected nine off Harry Johnson, Hensel and Richard Craycraft.

# Haas, Mayer Take Lead inMotor City Golf Tournament

DETROIT (AP)— Fred Haas of New Orleans and Dick Mayer of St. Petersburg, Fla., each cured an ailment, shot sub-par golf and led a field of 72 players into today's third round of the Motor City Open.

Haas carded a four under par 67 in yesterday's second round for a 71-67—138 total.

Mayer followed with five under par 66—the best round of the tournament—and posted a 72-66—138.

Their shot-making over the par course gave them a two-stroke lead over two tested professionals—Cary Middlecoff of Memphis, Tenn., and Bob Toski of Livingston, N. J.—and a comparative unknown, Bill Markham of Royal Oak, Mich. Each shot 140, two under par.

The first day leader, Dave Douglas of Grossinger, N. Y., scrambled at the start and slipped to a 73 after his opening 68. His 141 bracketed him in sixth place with five others—Gene Littler, Palm Springs, Calif.; Johnny Palmer, Charlotte, N. C.; Tommy Bolt, Houston, Tex.; George Fazio, Pine Valley, N. J.; and Ted Rhodes, Chicago.

# Vance, Bank Record Little League Wins

National City Bank and Vance were winners in Little League make-up tilts last night at Robert Scott Field.

The Bankers walloped Isaly, American League pace setters, 25-3, while Vance downed Osgood, 13-5, in a National League contest.

City Bank scored six times in the opening frame and never let up its attack in the next three frames for its win over Isaly.

Forrest Reichardt received credit for the win his first against one loss, although he was relieved by Jim Hindman in the fourth. The hurlers allowed only six hits, fanned four and walked one.

The Bankers knocked out 12 hits off three Isaly hurlers in scoring 10 runs in the second, six in the third and three in the fourth. Isaly netted a pair of runs in the first and one in the third.

Martin Stevenson, the starter, was charged with the loss, his second against no wins. Jaycox relieved him in the first and Paulus came on in the second. The hurlers gave up 18 walks and hit two batsmen. The Isaly moundsmen struck out six.

Ted Jolliff paced the City Bank attack with three hits, including a home run, in three official trips to the plate. He walked twice. Larry Combs and Pete Portetas both had a pair of hits. Isaly's hits were distributed among six players.

Three big innings carried Vance to its win over sgood. The winners, after scoring once in the first, came in with four runs in the third, three in the fourth and five in the fifth.

# Verbal Blows Exchanged By Nixon and Stevenson

WASHINGTON (AP)—Vice President Nixon has renewed his attacks on Truman administration foreign policy and Adlai Stevenson has declared that Nixon "must be competing . . .for the title of history's most irresponsible exalted statesman."

Nixon's fresh charge that the "previous administration" had lost 600 million people to communism came yesterday in an interview with Rep. Keating (R-NY) televised for New York stations.

**Speaks in Denver**

Stevenson, the 1952 Democratic presidential candidate, mentioned Nixon during an off-the-cuff talk at a Denver luncheon in which he urged Democrats "to do what can be done to make up for the deficit in leadership" in the Eisenhower administration.

A week ago, Nixon opened up on the Democrats in a Milwaukee speech with a charge that policies of former President Truman and his secretary of state, Dean Acheson, lost China to the Reds and led to the Korean war and present U.S. problems in Indochina. Democratic members of Congress reacted angrily, suggesting that a bipartisan foreign policy might be undercut if Eisenhower administration officials persisted in this kind of talk.

Asked about Nixon's remarks at his news conference Wednesday, President Eisenhower said his vice president is entitled to his own opinions, but that he is an admirable man, a great American who normally talks pretty much the language of the administration.

In his discussion with Keating, Nixon said Democratic planners "didn't understand . . . what the Communist threat really was" He said they left behind a foreign "policy of weakness, a policy of surrender of principle at the conference table."

**'Policy of Strength'**

On the other hand, Nixon said, the Eisenhower administration has "adopted a policy of strength—one in which our people go to the conference table . . . determined not to surrender our principles but to make them prevail."

Stevenson, on his way to an Alaska vacation, told a gathering of Democrats that Nixon has reversed himself in statements about Indochina.

In general terms, Stevenson stated that "an administration that cannot unite its own party, on essentials at least, can hardly hope to unite and lead the free world."

He blames the situation on a "platoon system" of secretaries of state, wherein foreign policy is laid down by Secretary Dulles, senate Majority Leader Knowland (R-Calif) and Nixon.

Speaking at a $6 luncheon in Denver yesterday attended by an estimated 600 Democrats, the former Illinois governor called on Democrats "to do what can be done to make up for the deficit in leadership" in the GOP.

He cited the "public brawl" of the Army-McCarthy hearings as an example, saying the Republican National Committee and Republican leadership failed to support Army Secretary Stevens.

He praised, on the other hand, the actions during the hearings of Democratic committee members Jackson of Washington, Symington of Missouri and McClellan of Arkansas.

## Health Checks Requirement of All Executives

CHICAGO (UP) — A doctor proposes that businessmen take regular inventories of their health to detect signs of "executive neurosis."

Dr George M Saunders of New York says that executives not only have the same health problems as everyone else, but they have special problems caused by their positions.

Saunders said that 60 per cent of the nation's business chiefs have one or more "significant abnormality," many of which are correctable.

He wrote in the American Medical Association publication, Archives of Industrial Hygiene and Occupation Medicine, that the very qualities that go into the making of an executive may lead to undermining his health.

"The intrinsic qualities which make men able executives such as imagination and driving energy are the very ones which may lead to disaster," Saunders said.

"The ability vision imagination and driving energy required of an executive must be coupled with that essential serenity and balance that come with emotional maturity if the executive neurosis is to be avoided."

The doctor warned against promoting exectives to positions beyond their emotional resources.

"Many who lack this emotional maturity are promoted beyond their depth," he said. "They may become overaggressive, tense, and anxiety-ridden, although this may not show on the surface, and a vicious spiral is started of anxiety, hostility, overactuvity, and still more anxiety.

"And so round and round until suddenly something gives."

Health inventories of executives, Saunders said, should be part of any program of selection for promotion.

The most prevalent defects, "of function or structure" found among 60 per cent of the executives, Saunders said are obesity, gastric distress, vision defects, high blood pressure, neurosis, anxiety and tension states, heart disease and cancer.

In Vesper Service

# Bishop Pickett, Expert On India, To Speak Here

An opportunity for Marion worshipers to hear a church authority on India will be given tomorrow night at the union vesper service.

Methodist Bishop J. Waskom Pickett, veteran of nearly 45 years of service in the mission field, will be the speaker at the service at 7 p.m. on the lawn of Central Christian Church. This will be the second in the series of summer Sunday evening union vesper services here.

The bishop will be heard in the place of Rev. Walter C. Eytser of Epworth Methodist Church who was scheduled originally as the preacher for the service. Devotional leader will be the host pastor, Rev. Ashley Booth.

A student of Indian life and of the Christian contribution to Asia, Bishop Pickett will speak on the new freedoms that have come to India in recent months and of their meaning for the future of the two nations, India and Pakistan, now living side by side in the territory which has been referred to as the Asian "sub-continent."

He went to India under appointment by his denomination in 1910 and was chosen an episcopal leader 25 years later. Head of the Delhi Area of his church, he has jurisdiction in both India and Pakistan, and is perhaps the best-known American there.

## Maranatha Bible

Closing service of special meetings at the Maranatha Bible Church will be tomorrow night with Rev. and Mrs. Charles Gray of Dennison, evangelistic team, in charge.

They have been in Marion to direct the Maranatha Vacation Bible School in co-operation with the pastor, Rev. Earl L. Holliday, and the week of nightly meetings following. Later they will return to assist with sessions of the Maranatha Bible Camp near Marion at Camp Owens and the tent meetings at Garfield Park through Labor Day.

Tomorrow morning a group from the church will conduct services at the Marion Training School and in the afternoon at the Marion County Jail.

## Oak Knoll Baptist

Returned after holding special services for three Sundays elsewhere, W. A. Hough, pastor of the Oak Knoll Baptist Chapel, will be in charge of the chapel's worship service tomorrow night. A special number at that time will be a girls' trio. For Youth Fellowship meeting preceding, the theme will be "Building for Eternity."

## Calvary EUB

Special instrumental music at Calvary EUB Sunday School in the morning will be by the Church School Orchestra. For morning worship an anthem will be presented by a quartet composed of Mr. and Mrs. Richard Eller, Miss Donna Eller, and Philip Wendell.

The church will cooperate in the union vesper service at Central Christian Church to hear Bishop J. W. Pickett from India. A meeting of the council of administration set for Monday night has been postponed to the following Monday. The Mary-Martha Class will meet Tuesday night. Midweek prayer service Wednesday night will be directed by Miss Doris Brading, newly elected class leader. The WSWS will meet Thursday night.

## St. Paul's Lutheran

The meaning of American independence based on Christian fundamentals will be the special emphasis at the worship service of St. Paul's English Lutheran Church tomorrow morning. Rev. Martin L. Dolbeer Jr. of Connecticut, son of the pastor, will give the sermon. He is pastor of First Lutheran Church, at Southington, Conn., and is in Ohio doing research work in connection with his Doctor of Philosophy thesis at Hartford Theological Foundation.

From July 6 to 14, the St. Paul's Church pastor, Rev. Dolbeer, will be in Meadville, Pa., taking part in the annual training conference for missionary recruits conducted by the Foreign Missions Division of the National Council of Churches.

The school, which opened June 23, is for young people of all denominations who are planning to leave this year for various mission fields. Held on the grounds of Allegheny College at Meadville, the conference will continue until Aug. 4. Approximately 150 new out-going missionaries are enrolled. The course consists of studies in the biblical basis of Christian missions, methods of language study, mission methods and area studies in work in Africa, the Near East, Japan, India, Latin America, and Southeast Asia.

Rev. Dolbeer, a former missionary in India, will be on the staff among such world mission leaders as Canon Max Warren, general secretary of the Church Mission Society of London, England; James L. Price of Duke University; Dr. Ira W. Moomaw, specialist in rural missions; Dr. Frank Laubach, leader in a world campaign against illiteracy; and Dr. Walter Freytag of Germany. Associated with him will be M. M. Thomas of the Mar Thoma Syrian Church of Travancore, Ind., and their area of leadership will be in studies of problems of mission work in the new state of India.

# Anchorage, Alaska, Minister To Speak At Epworth Church

Rev. Fred McGinnis, pastor of First Methodist Church at Anchorage, Alaska, will be guest preacher at Epworth Methodist Church tomorrow morning. A member of the Ohio Conference of the denomination, he was appointed to Alaska as a missionary in 1950 to serve as pastor of the Juneau Methodist Church.

He was given his assignment as pastor at Anchorage June 1, this year, and he will be on furlough until Sept. 1. During his time in Alaska he served two years as associate district superintendent. Graduated from Asbury College at Wilmore, Ky., in 1945 and from the Asbury Seminary in 1948, he served the Methodist pastorate at Quincy, O., before his missionary appointment. He is married and has a young son, Timothy.

His visit here will provide him an opportunity to visit Robert F. Williams, a member of Epworth who represented Ohio in the denomination's Alaskan evangelistic crusade last February. Williams was a guest of Rev. McGinnis in Alaska.

Special music in the morning will be a solo, "God in Heaven," Eldred, by Mrs. T. L. Berg. At 4 p.m. there will be an informal fellowship meeting for Bishop J. W. Pickett of India in Fellowship Hall. The bishop will speak at the union vesper services at Central Christian Church at 7.

Accompanied by Miss Margaret Huffman, counselor, 13 young people will leave tomorrow for camp at Sabina. The High School Fellowship will not meet tomorrow night, but will attend the union vesper services.

# He Receives Sinners

## A Sermonette

By REV. HAROLD V. FALOR

Pastor of Oakland Evangelical United Brethren Church

**"This man receives sinners."** Luke 15:2.

These words of enemies were meant to be a slander and complaint against Christ. They were rather an unintentional expression of compliment and eulogy of our Saviour, and the declaration of a practice on Christ's part that ought to be exemplified in the lives of all Christians. No one of us could have been saved were it not for the fact that Christ does receive sinners. Unless we too receive them, in the proper sense, others will be greatly hindered in experiencing the riches of His forgiving love and grace.

The purpose of Christ's mission to earth, and His death on Calvary, was to receive and save sinners. When rebuked for His loving-kindness to the despised chief publican, Zacchaeus, the Master explained, "For the Son of man is come to seek and to save that which was lost," (Luke 19:10). We are in much more danger of passing by people who need Christ, without doing what we should to help them to be received of Him, than we are of over-urging them by our influence and counsel to accept Him.

—:—

**ACTUALLY CHRIST** came to save sinners and nobody else. He said on another occasion when religious critics complained about His association with sinners, "They that are whole need not a physician; but they that are sick. I came not to call the righteous but sinners to repentance," (Luke 5:31,32). Christ will receive anyone who confesses that he is a sinner, and really wants to be saved. The "goody-goody" folks get left out because they do not sense any need of a Saviour, or will not make a clean-breasted confession of their wrongs to God. Even the vilest of evil-doers will be accepted of Christ if their attuude becomes like that of the Apostle Paul who said, "This is a faithful saying, and worthy of all acceptance, that Christ Jesus came into the world to save sinners of whom I am chief," (I Tim. 1:15).

To be accepted, ours must be the position of the penitent publican, who in his worship smote his breast and sincerely said, "God be merciful to me, the sinner"; and not that of the proud Pharisee, who in his presumed devotion, could do nothing better than brag about his virtues and goodness.

God is not impressed with our boasting, and has little patience with our self-righteousness; but He does promise that If we confess our sins, he is faithful and just to forgive us our sins, and to cleanse us from all unrighteousness, (I John 1:9).

—:—

**"THESE SLANDEROUS** words of Christ's foes,' this man receives sinners," insinuate that He had no legitimate business trying to help the down-and-out; that He loved the company of sinners for its own sake; that the fellowers of Jesus consisted chiefly of worthless and disreputable characters; and perhaps that those whom He favorably received continued to be sinners; all of which are false presumptions. We can perpetually thank God that their intended statement of truth and commendation with more far-reaching effects for good and salvation than we will ever be able to conceive.

While our text — viewed from the standpoint of the intentions of Christ's enemies is a base slander, as seen from the angle of God's revealed will, it is a most basic truth; from the position of the Saviour it sounds forth the highest praise; and from our veiwpoint it affords a most encouraging hope. Thank God for the practical Christian resources which it makes available to all of su.

—:—

**DO NOT NEGLECT** to build upon these words! Prove their golden worth by experiencing for yourself God's forgiving love; the transformation of your character from uncleanness to His likeness; the thrill of conscious, enriching, daily communion with Him; and the sensing of blessed strength and security in God for all of life.

On this eve of the commemoration of our National Independence Day let us remember that the most adequate solution of our grave national problems, as well as for our individual and family ills, lies in the confession of our sins to God in that thorough manner which will enable us individually and nationally to be received of Christ. May He give us abundantly of His mercy and love and grace, that our liberties may abide, and His name be glorified.

Value of Freedom

The 4th of July is a day to celebrate, for it is the birthday of our declaration that this country was to be a free country, a country where liberty for all was to be the motto. Let us never forget the value of this dearly-bought and often-defended freedom, and let us celebrate the Fourth with gratitude.

# PRIMER FOR AMERICANS

COPYRIGHT 1950, SIGURD S. LARMON

**You live in the United States of America. You are an American.**

**Real Americans like their country. They are proud of it. They think it is a good place to live. And they want to keep it good—to keep it getting better and better all the time.**

**Why is America the way it is? What makes it a good place to live? The answer is simply this:**

**Throughout our history most Americans have believed that every person has certain *rights* and *duties* and *responsibilities*.**

**Americans have believed that there are certain things that people *should do*, and other things they *should not do*.**

**They have also believed in certain things that people *are*, and *are not*.**

**These things that people believe are called *principles*. This book is an attempt to state the Principles of America in simple, primer fashion so that you can understand them, learn them, and remember them.**

**This is important. It was because earlier Americans believed in these principles and guided their lives by them, that America has grown to be the good place it is.**

**If all of us learn and remember these principles—if we also guide our lives by them—then we can help to keep America growing better, and better, and better.**

**And if we follow these Principles of America, we can help make the world a better place to live in, too.**

***The Principles of America are these . . .***

### 1. Each Person is of Importance and Value as an Individual.

This is the cornerstone . . . the foundation of all our other beliefs in a person's right to live his own life, to speak for himself, to choose and change his leaders.

From it comes our hatred of those "isms" under which the individual has no value or importance *as a person*, but is only one of many unimportant people who have to live the way their leaders tell them to.

Coming directly from that first principle are two other principles that are also part of the foundation of Americanism.

### 2. We Believe that All Men should Enjoy Personal Freedom.

### 3. We Believe that All Men are Created Equal.

It is worth noting that the Declaration of Independence expressed the belief that "all men are *created equal*." It did not state or imply a belief that men *develop* equally or have equal *ability*, or that they should ever be forced to an exact equality of thought, speech or material possessions.

That would be equality without *freedom*. Americans have always believed the two should go together.

From the days of the Declaration of Independence and the writing of the Constitution, Americans have known that even though Life, Liberty, and other unalienable rights are *granted* to man by his Creator, they require some protection by man himself.

So, in our Constitution, and in other laws of our land, there are set down principles to protect the rights and freedoms and equality of individuals. And these principles play an important part in *keeping* America a good place in which to live.

### 4. The Right to Freedom of Speech.

This includes freedom of the press, of radio, of motion pictures, of every means by which man may express his thoughts on any subject.

### 5. The Right to Freedom of Assembly.

As we believe in the right of individual action, so we believe that individuals should be free to act together for the benefit of all. This IS Democracy.

### 6. The Right to Freedom of Worship.

Not only is the individual free to worship as he will, but religions themselves are free and equal . . . regardless of their size or their beliefs.

### 7. The Right to Security of Person and Property.

Not just one, but three Amendments to the Constitution (4th, 5th and 14th) protect against illegal search and seizure, or loss of life, liberty, or property, without "due process of law."

### 8. The Right to Equal Protection before the Law.

As individuals are equally important, so laws must apply equally to all, without special privileges for any particular individuals or groups.

### 9. The Right to Freedom from Slavery.

This includes "the right to quit," for no individual may be *forced* to work for another.

### 10. The Right to Petition the Government.

The legally guaranteed right of the individual to "petition the government for redress of grievances" is evidence of the American belief that government is the servant, not the master, of the people.

### 11. The Right to Vote for people of your choice.

This is the individual's most potent weapon in the protection of his rights and freedoms . . . a weapon that to be effective must be constantly and wisely used.

***The Principles of America hold that every man has . . .***

### 12. The Right to a Good Education.

### 13. The Right to Live where he pleases.

### 14. The Right to Work where he wants to.

### 15. The Right to Join and Belong to an Organization.

### 16. The Right to Own Property.

### 17. The Right to Start his Own Business.

### 18. The Right to Manage his Own Affairs.

### 19. The Right to Make a Profit or to Fail, depending on his Own Ability.

There are other, similar rights of individual action which are Principles of America, but all of these individual rights may be combined in these two broad principles . . .

### 20. Every Man is entitled to Freedom and Equality of Opportunity.

### 21. Every Man may Earn his Living When, Where, and How he wants to.

***There are also Limiting Principles . . .***

Principles of individual *freedom* sometimes clash with those of individual *equality*. Therefore our rights as individuals must be limited, and those limitations are themselves *principles*.

### 22. The Rights of any Individual shall not Interfere with the Equal Rights of Other Individuals.

Your right to swing your arms stops where the other fellow's nose starts.

### 23. The Rights of any Individual shall not Interfere with the Welfare of the People as a Whole.

Freedom of speech does not give the individual the right to shout "fire" in a crowded theatre.

### 24. Every Individual owes Obedience to the Laws under which he Lives.

The individual has the right to talk against a law, to work and vote to change that law, but NOT to disobey that law.

***Principles that are Patterns of Behavior . . .***

Many of our principles of individual freedom and equality are guaranteed to us by law.

But we have other beliefs, other general rules of action and conduct that have grown to the status of principles. They have stood the test of time. They have worked. They have become a basic part of the way we live and of the way we look at things.

These principles, too, are foundations of Americanism. They are as true, if not more true, today than they were in 1850 or in 1750.

If America stays free, they will still hold true in 2050.

### 25. Every Man shall be Judged by his Own Record.

A man's family background, his race or his religion, is not as important as what that man himself can do, for Americans believe a man must stand on his own feet.

### 26. Every Man is Free to Achieve as much as he can.

We believe that where any boy may become President, where any man may achieve greatness, there is the greatest incentive for every man to do his best.

### 27. To Achieve anything, a Man should be Willing to Work.

Americans have always known that "you don't get something for nothing," that to get anything takes a willingness to work and to work hard.

### 28. Achievement also Depends upon the Ability to do a Good Job.

Add to "willingness to work" the ability to produce results and the combination is the basis for most individual achievement in our country.

### 29. Every Man has the Right to a Fair Share of the Results of his Work and his Ability.

Because of this belief, America has not only produced more goods, but they have been more fairly and more widely shared by more people than in any other country.

### 30. Security is the Ability of a Man to Provide for himself.

The only true security for any individual is the opportunity, the ability, *and the determination* to work and plan and save for his own present and future. Self-reliance is vital to individual independence and personal freedom. No man can be "proud and free" who depends on others for his security.

### 31. When an Individual cannot Provide his own Security, the Responsibility should be Assumed by Others.

We believe that no one should starve, or be without adequate clothing and shelter, so those who have more than their basic needs share the responsibility of providing the essentials of security for those who need help.

**Printed as a Public Service by these civic-minded firms and institutions**

### 32. Every Individual must Deal Fairly with other Individuals.

Honesty, fairness, and personal integrity are virtues that help free and independent individuals get along with each other without losing their independence.

### 33. Fair and Free Competition is a Good Thing.

Americans have always believed that competition among individuals or groups encourages greater effort which in turn brings greater benefits to all.

### 34. Cooperation among Individuals is Vitally Important.

PRESIDENT EISENHOWER has said: "The freedom to compete vigorously accompanied by a readiness to cooperate wholeheartedly for the performance of community and national functions, together make our system the most productive on earth."

***Principles of Individual Responsibility . . .***

Freedom for individuals carries with it an equal responsibility to use that freedom wisely. Therefore, if we wish to remain free, we must faithfully fulfill our responsibilities as free men.

### 35. The Individual is Responsible for himself and his Family.

He must protect them and provide for their present and future well-being.

### 36. The Individual has Responsibilities to the Groups of which he is a Part.

He must give of his best to his community, his church, his employer, his union, and to every group in which individuals cooperate for their mutual benefit.

### 37. The Individual has Responsibilities to his Country.

He must be an active citizen, interesting himself in local, state, and national government, voting wisely, thinking and speaking and acting to preserve and strengthen freedom, equality and opportunity for every individual.

### 38. The Individual has Responsibilities to the World.

Man's horizons have expanded. What happens in the world affects him, and his actions can affect the world. Today, therefore, each man has a responsibility to act—and to encourage his country to act—so that freedom and cooperation will be encouraged among the people and the nations of the world.

## For America's Future

Most of us are still confident of ourselves and of our country. We do not claim perfection. But we have faith in our ability to move forward, to improve, to grow, to provide more and more individuals with more and more of everything they want and need in life . . .

If we, the people of the United States, want to have more material benefits, we must believe in and follow these two principles:

### 39. The only way we can Have More is to Produce More; and

### 40. As we Produce More, we must make it possible for More and More People to Enjoy that which we Produce.

If we, the people of the United States, want to have a better life, spiritually as well as materially . . .

### 41. We must stand firmly for our Beliefs, our Rights, our Principles.

WALT WHITMAN, writing nearly 100 years ago, put it this way:

"There is no week, nor day, nor hour when tyranny may not enter upon this country if the people lose their supreme confidence in themselves . . ."

There are those who would chip away our confidence so that their special brand of tyranny might creep into America. They must not succeed. So, let us ask of every plan, or act, or idea . . .

# Confident Living

By NORMAN VINCENT PEALE

## You Are Never All Through

In almost every city and town of our country, there is one name you are sure to find. It is that of J. C. Penney, and the storefronts on which it appears are part of one of the great mercantile enterprises of our time.

DR. PEALE

Mr. Penney is my very good friend, and I consider him one of the most useful men in the country. At one time he was also a very rich man. Then he lost forty million dollars. Not only that, he went into debt another seven million.

During this period of financial collapse, it seemed to him that he lost every friend he had. In his deep depression he tells me that he felt even his family had deserted him. He was, so he thought, a broken man. He had a nervous breakdown, shingles and other maladies. In the attempt to retain his health he entered a sanatorium.

He was so ill that, though only fifty-six, he felt himself beaten and defeated. One night he became certain that this was to be his last night of life. Something told him that he would die before morning; so he wrote a last letter to his family, turned out the light and lay down in bed to die.

—:—

MORNING CAME and he found himself still alive. He felt very weak, but as he lay hopelessly in bed he heard the sound of singing from somewhere in the building. He got out of bed, put on a robe and shuffled down the hall of the sanatorium to find that some of the patients were holding a prayer meeting in a parlor. The music he had heard was a hymn: "Be not dismayed, whate'er betide, God will take care of you."

Mr. Penney had known that hymn all his life, but now as he stood there, his tortured and unhappy mind reached out for something. And again he heard the words: "Be not dismayed, whate'er betide, God will take care of you." All of a sudden he let himself go and gave himself to God. He asked God to take charge of him and to come into his life fully and completely.

The change was slow but certain. His physical diseases were cured; his depression lifted and then vanished. He became a strong and healthy man, then literally gave himself to the work of God. Day after day, week after week, month after month, he covers the country, speaking and telling people in a winsome and compelling way how Christian principles are the solution to personal and social problems.

—:—

TODAY, PEACE and serenity and joy are written on his face. There is no doubt in my mind that, in the latter phase of his career, he has become even more useful than when he built up the more than 1,600 J. C. Penney stores across the country. This great merchant became also a great man of God.

His story illustrates what can happen when one really prays and becomes a dedicated person. The talents and abilities with which we are all endowed are stimulated and operate at full potential. Your life takes on new power and meaning, not only for yourself, but for all whom you touch.

So if you have received some heavy blows and life seems hopeless, remember the story of J. C. Penney. Do not despair, but realize that God has perhaps a bigger job for you to do than you have ever done. You are never all through.

# Roger Severns Heads Oakland Church Group

Officers elected by the Oakland EUB Youth Fellowship recently include Roger Severns, president; Robert Klingel, vice president; Dorcas Falor, secretary; and Richard Kuhlman, treasurer.

A review of the year's activities was given and plans were announced for a special summer recreation feature. Tuesday nights have been set aside for outings which will include swimming in the pool at Bucyrus. Sunday night meetings at the church each week are at 6:30. The Youth Fellowship is comprised of young people from 12 to 24.

During the year, members attended camp meetings in the summer, in August and a junior high school age retreat at Fostoria in September. The group presented a play, "Armed for the Conflict," in November at Oakland Church and at the rural Salem Church.

A Christmas party and caroling were featured in December, and Miss Doris Brading from Calvary Church began a missionary book review for the Sunday night meetings. Watch Night service was held New Year's eve, and Youth Week events were scheduled during the week of Jan. 31. A Youth Refreshment Fund was started for meetings at the Parish House. April 18 a play was presented at the Easter sunrise service.

Cleveland Bible College Choir members were entertained by the Youth Fellowship at the Oakland Church Parish House May 20 preceding a concert at the church the following day. Bringing the year to a close, members spent the day June 9 at the denominational camp at Lake St. Marys to hear Miss Helen Ball, missionary from Mexico.

## Wyandot County Pastors To Give Radio Program

UPPER SANDUSKY — Wyandot County Radio Week for devotional services over Marion Station WMRN and Findlay Station WFIN will be observed July 5-9. Time of the Marion broadcast will be 8:15 a.m. and of the Findlay program 10:30 a.m. Ministers from the county who will speak include for the week on the Marion station, Rev. A. M. Bosler, Rev. Richard Ward, Rev. B. F. Crawford, and Rev. Paul Deppen; and on the Findlay station, Monday, Tuesday, and Wednesday, Rev. Ray McMillan, Rev. Paul E. Rohrbaugh, and Rev. F. L. Sarver.

Announcement has been made of plans for a county-wide religious service at the grandstand on the fairgrounds Sunday night, Sept. 12. Rev. Norman R. Somerville of Galion will speak. Sacred musical numbers will be by an Upper Sandusky Junior Choir sponsored by Rev. Sarver and Rev. Rohrbaugh, and combined choirs of Sycamore directed by William Niebel.

The Hall of Religion will be open each day of the Wyandot County Fair with Rev. K. R. Roberts of Nevada in charge. There will be displays by the Ministerial Association, the Council of Religious Education, the Gideons Camp, CROP officials, and similar groups.

## Rev. J. R. Dallas Named Pastor of Lee Street Church

Rev. J. Raphael Dallas of Marion has accepted the pastorate of the Lee Street Presbyterian Church and will take over his official preaching duties tomorrow. The new schedule of services includes worship at 9 a.m. followed by Church School at 9:40.

Previously the sermon and Sunday School were included in the 9 a.m. service and Rev. Howard L. Olewiler, pastor of First Presbyterian Church was the preacher. He resigned his pastorate here recently.

A more extensive program is being planned by the congregation.

For several years a pastor in Marion, Rev. Dallas, a minister of the Evangelical United Brethren Church, came here first to fill the pulpit of Oakland EUB Church. On leaving Marion he went to Westerville, then returned here to make his home permanently.

He took over pastoral duties of the Asbury Methodist Church during the last illness of the late Earl N. Hale who had been the Asbury pastor. A new minister was assigned there recently at the session of the Methodist Ohio Annual Conference. Rev. Dallas has been in the ministry 43 years. He and Mrs. Dallas live at 919 Bellefontaine Ave.

**SEEKS MONEY FOR VETS**

COLUMBUS, Ohio (AP) — State Auditor James A. # Wheat Harvesting Time Near for Farmers in Ohio

COLUMBUS, Ohio (AP) — Wheat shaped up to become a big topic among Ohio farmers next week with full scale harvesting about to get under way.

Some wheat was beginning to move to storage spots and some concern was expressed in a few areas over adequate storage facilities.

**Tough Problem**

Storage was a tough problem last year and the same trouble was feared in the next month as the grain heads toward the elevators.

The official government wheat forecast on June 1 was 44,700,000 bushels for Ohio compared to 69,136,000 bushels last year and the 10-year average yield of 47,616,000 bushels.

A new crop forcast is expected early this month.

B. U. Kienholz, head of the Federal Bureau of Agriculture Economics here, pointed out this year's crop probably will be a better than average yield, with a lower total probable because of less acreage planted this year.

Spokesmen for the Agricultural Stabilization and Conservation Office here said storage will be harder to find than in 1953, when the record 69,136,000 bushel wheat crop jammed elevators everywhere.

First Franklin County report of wheat placed in storage came from the Winchester Milling Co., Canal Winchester. The firm took in 200 bushels from farmer George Bigerton, Rt. 1, Canal Winchester.

Wheat movements began in areas south of Columbus, including Circleville and it was expected harvesting in most areas would begin on a large scale next week.

**$1.70 a Bushel**

Farmers who want to sell their wheat immediately at the open market price of about $1.70 a bushel can expect little difficulty in disposing of it. But those who want to take advantage of a government-guaranteed top price of $2.24 for No. 1 wheat are expected to run into trouble.

Elevators in the Columbus area which act as primary storage points can take in many thousands of bushels. But big storage centers, such as the ones in Toledo and Cincinnati, were reported in many cases still crowded with last year's crop.

It is these storage centers where the grain must be sent after temporary local storage.

Farmers crowded into the ASC offices here today, seeking marketing quota cards. They get the cards if they have stayed within the government established production allotment.

The farmers have their choice of three moves. They can sell the wheat on the open market, get a government loan on it, or obtain a purchase agreement on it from the government.

Deadline for payment of the loan and disposal of the wheat by the government under the purchase agreement is April 30, 1955.

**Storage Loans**

Farmers also can get storage facility loans enabling them to construct wheat storage bins on their own farms. They have four years to pay off these loans.

Officials said theoretically, this year's wheat production quota was to be 26 per cent less than last year. This was based on the farmers' 1952 and 1953 wheat production, considered "normal" and reduced from those production figures.

But some farmers ignore the quota and there are no regulations against him using more fertilizer and care in getting more wheat per acre.

In Hamilton County, Agriculture Agent Carl Bibbee said wheat harvesting will begin there next week, and that a crop about 90 per cent of normal is expected.

## Bike-Decorating Award Captured by Sara Marble

A bicycle decorating contest, special feature of the children's summer recreation program of Central Christian Church this week, was won yesterday by Sara Marble. Consolation prize went to Tommy Hoover. Others taking part were Craig Smyth, Franny Voll, Neil Hall, and Bobby Conklin.

Next Friday, the special feature will be a hobby show at 10 a.m.

Children from six years through high school are enrolled for the playground project which is held Monday through Friday each week under direction of Rev. Joseph Dupuis, educational assistant of the church staff. Hours each day are from 9 a.m. until noon and 1 p.m. to 5, and the program will continue through Aug. 13.

# Previews of the Coming Attractions at the Local Theaters

## Palace Schedules 'Johnny Dark' as One of 2 Features

"Johnny Dark," co-starring Tony Curtis, Piper Laurie and Don Taylor, and "Capt. Kidd and the Slave Girl" with Tony Dexter and Eva Gabor, will be shown Sunday through Wednesday at the Palace Theater.

The story of "Johnny Dark" concerns the efforts of a young automotive engineer to create a sports car model for the conservative motor company which employs him. His romance with the young stylist assigned to him, his rivalry with a roughneck test-driver, and the exciting border-to-border sports car race provide the action for the film.

The latter is in color and is the story of adventure and romance on the high seas.

Billed for Thursday through Saturday is another double feature, "Black Horse Canyon" and "Bwana Devil." Both are in color. The former stars Joel McCrea and Mari Blanchard, and heading the cast in the latter are Robert Stack, Barbara Britton and Nigel Bruce.

In the former, Joel McCrea, a "saddle tramp," and Race Gentry, a new star, are partners in homesteading a horse ranch. Mari Blanchard, their neighbor, first fights them then invites them to join her in capturing the outlaw stallion who has escaped her corral and who periodically raids the place for mares to add to his mountain harem.

Another neighbor decides to get into the act, too, and uses every brutal trick to cheat them out of the wild horse.

Filmed on location in Central Africa, "Bwana Devil" is based on a true story. The real-life episode concerns two man-eating lions who successfully stopped the building of railway tracks across British East Africa for a period of six months. It is a matter of record that almost 200 people were killed by the man-eaters.

## 'Demetrius,' Sequel To 'Robe,' Opens Ohio Theater Run

"Demetrius and the Gladiators," a Cinemascope production in technicolor which is a sequel to "The Robe," is the current attraction at the Ohio Theater.

Starring Victor Mature and Susan Hayward, it will play through Wednesday. In supporting roles are Michael Rennie, Anne Bancroft and Jay Robinson.

In "Demetrius and the Gladiators," Mature is seen in the title role, Rennie plays the Apostle Peter and Jay Robinson is Caligula, the same roles they played in "The Robe."

The story shows the length to which the Romans went in the first century to break the faith of the Christians. Demetrius succombs to the wiles of Messalina, wife of Claudius and called the "wickedest woman in Rome," and through her malevolance is forced to fight as a gladiator before being lured to a life of indulgence.

Starting Thursday will be "River of No Return," also in Cinemascope and technicolor and starring Robert Mitchum and Marilyn Monroe and featuring Rory Calhoun.

The story is set in the great northwest during the gold rush days of 1875. Marilyn Monroe is seen as a honky-tonk songstress while Mitchum is a homesteader along the river's edge where Marilyn and Calhoun come ashore to repair their raft. They have plans to go down river to lay claim to a gold field Calhoun has won as a gambling debt.

Calhoun rides off with Mitchum's horse and rifle, leaving Marilyn together with Mitchum and his son to the mercies of warring Indians. The trio escapes to the treachery of the river rather than remain for certain death.

**VICTOR MATURE AS DEMETRIUS** talks with Susan Hayward in this scene from the Cinemascope production in technicolor, "Demetrius and the Gladiators," which currently is playing through Wednesday at the Ohio Theater.

**PIPER LAURIE AND TONY CURTIS** are a romantic twosome in the technicolor production, "Johnny Dark," which will be one attraction of a double feature Sunday through Wednesday at the Palace Theater. Co-starred is Don Taylor.

## 'Great Sioux Uprising' On Marion Theater Bill

"The Great Sioux Uprising," in technicolor and starring Jeff Chandler with Faith Domergue and Lyle Bettger, and "Paris Playboys" with Leo Gorcey, Huntz Hall and the Bowery Boys, will be shown Sunday and Monday at the Marion Theater.

In the former, Chandler is seen as a medically-discharged Union officer who, while enroute to California to start a new life, becomes involved with a horse rustling ring which threatens to drive the Sioux nation to the warpath. In the latter, the boys go to Paris when Hall is hired by a sub-committee of the United Nations to help apprehend the members of a spy ring that has been trying to get a secret formula worked out by a missing French scientist, for whom Hall is an exact double in appearance.

Billed for Tuesday and Wednes-

# Firearms

By Hal Boyle

NEW YORK

There is a big boom now in old firearms—and some rifles are literally worth their weight in gold.

"Firearm vales have gone up fantastically," said John T. Amber of Chicago, editor of "The Gun Digest."

HAL BOYLE

"There are over 500,000 weapon collectors in America. The number has grown tremendously since the war."

Amber, a former reporter who became one of the nation's top hunters and riflemen, has a collection himself of some 75 pistols and 600 rifles.

—:—

**WHAT RIFLE** could be worth its weight in gold? It is a specially marked Winchester 1873 model, sometimes called "the rifle that won the West."

"Some 700,000 of these rifles were sold, and an ordinary one in average condition today brings only $25 to $50," said Amber. "But the company put out about 150, shown by factory testing to be exceptionally accurate, and marked them on the barrel—'one out of a thousand.'

"Only about 35 of these rifles are known to have survived, and each is worth from $5,000 to $7,500."

One of the sorrows of Amber's life as a collector is that he once had one of these rifles himself, but 15 years ago sold it for $75 before its value and rarity were known.

Bargains the beginning collector should beware of, he said, are "the pair of pistols supposedly used in the Hamilton-Burr duel, and guns that once belonged to Jesse James or Wild Bill Hickock.

"If all the guns supposed to have been owned by Jesse James were genuine, he had an arsenal bigger than the entire U.S. cavalry."

—:—

**AMBER DOUBTS** the legendary tales of the shooting skill of some of the oldtime western gunfighters, such as Hickock and Billy the Kid.

"As a matter of fact, they didn't have to be a particularly good shot," he said, "because their target was man-size, and usually not more than 15 to 20 feet away.

"I doubt if any of the oldtime gunmen could equal Ed McGivern, who used to be a peace officer in Montana.

"McGivern could toss dimes in the air, draw his gun and hit them 100 times in a row. Speed? He could draw his gun and put five bullets in a playing card at 15 feet—in three fifths of a second.

"Of course, there's a big difference in shooting at a playing card and at a man with a gun firing back at you."

Amber estimates there are more than 50 million firearms of all kinds in America, and says that, contrary to general belief, comparatively few of the thousands of guns brought home by ex-servicemen have been used in holdups.

"Kids would be better off—and there would be fewer accidents," he said, "if they were taught to use firearms properly. They probably will have to use guns some time in life anyway, and they ought to know the right way.

"In the last few years the National Rifle Association, which has 350,000 members, has trained a million teen-agers in the use of a rifle—and never had a single accident."

GENE EVANS uses some very persuasive methods in trying to get Dolores Donlon to "talk" in the above scene from the suspense drama, "The Long Wait," a first-run attraction Wednesday through Saturday at the North Drive-In Theater.

# Theaters

(Continued from Page 4)

day are "Casanova's Big Night" and "Take Me to Town."

In technicolor, the former stars Bob Hope and Joan Fontaine with Basil Rathbone, Audrey Dalton and Hugh Marlowe. Hope portrays the role of the celebrated Casanova's tailor, who, through a strange and laughable sequence of circumstances if forced to impersonate the swashbuckling lady killer.

"Take Me to Town," co-starring Ann Sheridan and Sterling Hayden, combines humor, action, music and romance. Ann Sheridan as a colorful frontier dancehall entertainer, is adopted by three small motherless boys ,whose father is Sterling Hayden, a rugged lumberjack and parttime preacher. He attempts to make a place in the community for the entertainer.

Thursday through Saturday, the attractions will be "The Long, Long Trailer" and "Vigilante Terror."

## South Drive-In Theater Schedules 'Naked Spur'

"The Naked Spur," technicolor film starring James Stewart with Janet Leigh and Robert Ryan, will be shown Sunday and Monday at the South Drive-In Theater.

Billed for Tuesday and Wednesday is one of the adventures in the lives of Ma and Pa Kettle. Marjorie Main and Percy Kilbride are starred in "Ma and Pa Kettle at Home," with Alice Kelley, Brett Halsey and Alan Mowbray heading the supporting cast.

In this comedy film, the Kettle's son, Elwin, wins an essay contest which puts the Kettle acres in a model farm contest. It is the announcement that the contest judge is due to inspect the place that sends Ma and Pa, the assorted Kettle brood, and the ever-faithful Indians, Crowbar and Goeduck, hurrying and scurrying to patch up the place.

Thursday through Saturday the attraction will be "Blackbeard, the Pirate," a technicolor production starring Linda Darnell, Robert Newton and William Bendix.

Oil refineries produce about 1,500 different products which have uses totaling many times that number.

## Spillane Mystery Opens Wednesday At North Drive-In

"Stalag 17," the comedy melodrama concerning American prisoners of war in Germany during World War II, will be shown Sunday through Tuesday at the North Drive-In Theater.

William Holden, the star, won the Academy Award for his role in this film. He is supported by Don Taylor and Otto Preminger.

The story concerns a group of airmen interned in a German prison camp and tells of the men of "barracks four" and their efforts to learn the identity of the informer amongst them who they know is reporting all of their plans to the notorious camp commandant. The prime suspect is Holden, a cynical, sharp-tongued GI who spends most of his time bargaining and bartering with the Germans.

Billed for Wednesday through Saturday as a first run attraction is the new Mickey Spillane mystery thriller, "The Long Wait." The co-stars are Anthony Quinn, Charles Coburn, Gene Evans and Peggie Castle, and heading the supporting cast are Mary Ellen Kay, Shawn Smith and Dolores Donlon.

"The Long Wait" tells of the valiant effort of an amnesia victim to clear himself of a framed murder rap. Anthony Quinn goes about trying to prove who he is and what he didn't do, namely bank robbery and murder.

## 'Son of Cochise' Paired With 'Killer Ape' at State

"Taza, Son of Cochise," technicolor adventure film starring Rock Hudson and Barbara Rush, and "Killer Ape" with Johnny Weissmuller and Carol Thurston, will be shown Sunday and Monday at the State Theater.

Billed for Tuesday and Wednesday are "Yellow Sky" and "Inferno." The former stars Gregory Peck and Anne Baxter, and heading the cast in the latter, in technicolor, are Rhonda Fleming and William Lundigan.

Jeanne Crain and Michael Rennie are stars of the film, "Dangerous Crossing," which will be the main attraction of a double feature Thursday and Friday. Completing the billing will be "Mark of the Renegade," in technicolor and starring Richardo Montalban and Cyd Charisse.

Saturday only, the attractions will be "Man on the Tight Rope" starring Fredric March and Terry Moore, and "Bronco Buster," in technicolor, with John Lund and Scott Brady.

Digitalis, derived from the Foxglove plant is an effective heart medicine, but a similar drug is derived from the glands of some toads.

**MAN ORDERED TO LEAVE**

A 37-year-old man who gave no home address was ordered to leave Marion or pay a fine of $25 and costs when he pleaded guilty to being a suspicious person in Municipal Court Friday. He was Ervin D. Carter, arrested by city police at 4:39 a.m. Friday on S. Main St.

## It's Your Independence

American independence is not a condition that was brought about by something that happened in the last quarter of the 18th century and thereafter could be taken for granted.

It is not something that was gained by our remote ancestors in the days when America is young and passed along like an heirloom as America grew older.

It is not something to be spoken of in the past tense or to be thought about as an event in history.

It is alive and present — something each American possesses now. It is personal, immediate, dynamic and in a literal sense it is still mankind's best hope for an ultimate triumph over the despotism that still dominates most of the world.

Independence is a state of mind secured by a state of law and, beyond that, by a state of public opinion which makes the state of law meaningful and enforceable.

Scarcely a week passes in this republic that does not bring some important test to determine whether or not large numbers of Americans still deserve to be free of oppression and are still willing to pay the price of freedom.

The test is survived with credit only when most of those who endure it emerge with their own and their neighbors' independence intact. Anything that detracts from the sum total of human ability to attain the pinnacle of dignity represented by the Christian ideals on which the Founding Fathers founded their republic is a blow to freedom.

Men who refuse to think for themselves or are unable to think for themselves do not deserve to be free and do not know what to do with freedom when they have it. They cannot attain independence in their own minds, the only place where independence is secure.

It is not a static structure of rules and precedents but an ever-changing and ever-growing concept of the more than 160 million individual minds which now comprise the United States.

## Four-Minute Milers

There was a time — and not long ago — when a 10-second 100-yard dash was out of the realm of probability. Some even thought it was impossible.

Today, the 100-yard dash is consistently run in less than 9½ seconds. There are thousands of high school and college boys who can stay inside the 10-second limit.

The rate of progress in this particular race was made possible by intensive improvement of every factor with bearing on the time consumed in it. Tracks were made faster. Starting blocks were added to the runners' equipment. Stop watches and procedure for using them were improved. Runners were encouraged to train more energetically and intelligently.

Somewhat the same thing has happened in the other major running accomplishment which was held to be improbable until Roger Bannister performed it a few weeks ago — the less-than-four-minute mile. Bannister's time already has been shaded by an Australian, John Landy. It is likely that less-than-four-minute milers will be common in a few years.

Tests made on Landy by Swedish scientists suggest that oxygen absorption and lactic acid production account for success in long-distance running, plus perfect tracks, perfect timing, perfect weather and perfect conditioning.

Who will be the first to run the 3½-minute mile?

## The Turnpike Era

Long before the end of the century, if turnpikes continue to be built at the present rate, a motorist can cross the United States in any direction on a superhighway. He will encounter no oncoming vehicles on divided traffic lanes. He will be bogged down in no city traffic congestion. The time is within imagining distance when the first nonstop auto trip from New York to San Francisco will be made.

This will be made possible by the revolution of the toll-road method of paying for construction and upkeep of highways. The bulk of the tolls will be derived from commercial vehicles. Their owners are the most enthusiastic users of existing turnpikes. They cannot afford to waste time, fuel and upkeep on free roads when more efficient toll roads more than pay for the cost of using them. Yet the commercial users already have paid for the use of the free roads.

The original 160-mile section of the Pennsylvania Turnpike was opened to use in 1940. The turnpike era is less than 15 years old. By 1956, a motorist can expect to drive from New York to Chicago, or from Chicago to Florida on limited access roads.

The prospect is something to think about when state authorities ask for special taxes to pay for public roads and when special interests —chiefly the truck industry — charge that such taxes are grossly unfair.

What is the difference between paying special taxes to build better public roads and paying tolls for the use of limited access roads Why is the camel swallowed so easily when the gnat is strained at so vociferously

# Alarm Over U.N.

### *French Deny Deal To Admit Red China as Member*

Uneasiness over what's going on in Indochina seems to be increasing as suspicions are voiced here that maybe there is a deal on between France and Red China concerning the evacuation of certain areas in southeast Asia.

Also rather vehement speeches have just been made by Sen. Knowland, majority leader, and by Sen. McCarran denouncing any idea of admission of Red China into the U.N., which they suspect may be part of a deal involving French support for that step in exchange for better terms for France in Indochina.

Both hypotheses are declared by French officials in Washington to be baseless. As one of them explained it, why would any French general withdraw his troops before an armistice is signed, especially when negotiations at Geneva between the military men and the diplomats have by no means been concluded?

It was stated that obviously the withdrawal from certain parts of the rich delta area by the French is a strategic retreat and means only that a narrower perimeter will be established that can be more readily defended hereafter.

•:•

**THE SITUATION** is by no means stabilized. On the contrary, it presents possible complications for the United States and Great Britain. If the French find themselves unable to defend the area to which they have retreated and if they feel compelled later to accept adverse terms in an armistice, the Paris government undoubtedly will once more ask for American and British military aid before resigning itself to the acceptance of the Communist proposals.

In other words, America and Britain may have to share in part and blame for the debacle.

There is some dispute as to what really has happened in recent months between the United States and France with reference to official discussion of military intervention.

The State Department's version is that the French government never formally asked for aid and that the United States outlined the conditions for such aid which, in effect, called for an internationalizing of the war in Indochina and for a vote of confirmation by the French Parliament as well as written requests by the governments involved that America came in.

The French version is that no government can ask formally for aid or promise an action by paliament, that the meaning of the Fench diplomats who presented the matter informally was unmistakably clear and that the conditions set forth by the United States were unacceptable.

•:•

**SOME DAY** when a "white paper" is issued on the subject, it will be interesting to examine the documents on both sides and see what led to the misunderstandings.

As for the military withdrawal, this, it is authoritatively declared by French spokesmen, was decided upon several weeks ago when Gen. Ely flew to Indochina on a special mission and that what's happening now is a consummation of the program adopted by the Laniel - Bidault government in Paris in May.

The issue of admission of Red China to the United Nations is not one that the French would raise, because they know how sensitive the American government is on that subject. Rather it is suggested that revival of the discussion now is a result of the Churchill-Eisenhower talks which some British newspapers have linked with the possibility of a change in the Washington government's attitude. There is no change coming.

Republicans as well as Democrats in Congress are united against admission of Red China into the U.N. if any government on the Allied side in Europe wants to press for admission for Red China and succeeds in persuading the Security Council to replace Nationalists China with Communist China, the end result will be action by Congress withdrawing from further participation by the United States in the U.N.

•:•

**EUROPEAN GOVERNMENTS** which may be anxious to placate Red China might better consider whether it is worth while to swap a Communist membership for an American membership.

Nothing could contribute more bitterness to a political controversy inside the United States — and it could affect appropriations for foreign aid and war policies in general — than a decision by our allis to take Red China to their bosoms notwithstanding the 140,000 casualties in Korea and the persistent refusal of the Communists to recede ni the slightest from their course of aggression.

It would inded be the beginning of the end of such prestige as the U.N. retains in America.

The best information available in Washington is that no government in Europe among our allies is seriously considering any such step at this time. It certainly can hardly have any connection with what's happening in the negotiation of an armistice in Indochina.

### By TRUMAN TWILL

Dear Nephew: I am going to attract attention this weekend. The way it is shaping up, I will have exactly one dozen family-sized American flags on display in our front yard and six more at the filling station and store.

This is going to be my personal reminder to thousands of my fellow Americans who will be passing this way that Independence Day is the only 100 per cent patriotic occasion we have in this country. All the other holidays are associated with other things besides the United States — religion, respect for the dead and calendrical events.

But on the Fourth of July all patriots stand up to be counted for America. The date is incidental; in fact it is merely symbolic. As I read it, history has a more interesting story to tell about what it meant to be independent back there in the early days than the one taught to school children. I wonder why the real story is neglected.

By July 4, 1776, the Revolution which was to achieve freedom for the former British colonies was about a year old. All that really happened on July 4, 1776, was formal adoption of the sense of a resolution previously introduced by Richard Henry Lee on June 8, 1776. The language of the Lee resolution can still be read in the famous last paragraph of the resolution drafted by Thomas Jefferson and adopted by Congress with some changes the following July 4 —the Declaration of Independence.

This is the famous paragraph, with one of the most stirring passages in our entire history: "And for the support of this Declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes, and our sacred Honor."

This was a personal matter with the Founding Fathers. It was, they, themselves, who were declaring independence. They had the courage to risk their own lives, their own fortunes and their personal honor on the proposition that men had been endowed by their Creator with the right to be men. That was strong language in those days —and strong thinking.

Some of us who complain because the bully boys are still pushing around people they want to intimidate should remember that the bully boys are always with us and will take charge if they do not get slapped on the nose every day of the year.

Independence must be earned by each individual in each generation. It cannot be bestowed like an inheritance. I think this should be taught in the schools, insead of a mess of doctored history.

As far as I personally am concerned, quibbles about history are nonsense. We get things all twisted up. The so-called "Declaration of Independence" that Congress adopted on July 4, 1776, was not really signed until Aug. 2. Not all members of the Continental Congress were present in August. Some who had voted in July were absent; some who were present in August had been absent in July.

There was no excitement on either occasion — on the surface. The excitement was in the minds and hearts of men and women who dared to stand up and be counted for an idea frowned upon by the most respectable people of that time. Independence was not the proper way to be thinking in 1776 if you ran with the majority.

The American Revolution was brought about by the determined attitude of a minority. It was not a spontaneous movement and it was not popular. I always think about this on Independence Day. I would like to talk about it to Americans who charge that something has happened to freedom because they still have to stick out their chins to uphold what they believe to be true.

That is what it means to be independent. That is how we got this way. That is why every despot is afraid of us, even when we give the appearance of being afraid of the despots.

That is why I have rounded up all the flags I can lay my hands on. I want passersby to say, "There's an old coot who takes his Independence Day seriously. Look at all those flags."

Yep, here's an old coot who takes his independence pretty seriously whenever it's time to be counted. Your aunt joins me in wishing you and yours a happy Independence Day with no heartburn, no sunburn, no distractions and green grass growing all around.

## Marion County History Brevities

### By EDNA S. DUTTON

In the early days in Marion tax duplicates were made up by the recorder and delivered to the town marshal for collection. In the event of non-payment of taxes the marshal was given authority to sell the real estate of the delinquent and execute a deed for the land to the purchaser. For his services in making tax collections, the marshal received six per cent on all moneys collected by him and paid into the treasury.

# Argument Against Fryingpan Project

### By Raymond Moley

GRANBY, Colo.

In a previous column I described the controversy here in Colorado over the so-called Fryingpan - Arkansas transmountain diversion project which is now before Congress for authorization. The most important spokesman for the opposition from the western slope is John B. Barnard, an attorney practicing in Granby.

His argument is based first upon the great potential oil and mineral developments on the Colorado and the future needs of that for water.

He also points out that present and proposed diversions of water to the eastern slope would not only cripple such an industrial development, but seriously impair if not destroy the rights of present irrigators to their share of the water of the Colorado basin.

A clear perspective on his figures can only be secured by a review of the manner in which the water of the Colorado has been allocated.

•:•

**MORE THAN 20** years ago, the Colorado River Compact divided the water between the lower basin states and the upper basin states. That compact provided that the upper basin states would deliver 7,500,000 acre feet annually to the lower basin and to Mexico.

Then, in 1948, a pact among the upper basin states allocated the remainder among themselves. In that pact, Colorado was allowed 3,100,000 a.f.

Of that supply, 1,188, 000 a.f. are already in use in western Colorado by users including irrigators and others with firm legal rights.

Of the remainder, diversions now operating are taking 377,000 a.f. These are the Big Thompson, the Denver, and the Colorado Springs diversions, plus a few minor ones.

There also are according to Barnard, 528,000 a.f. already committed to one purpose or another. That leaves only approximately 1,000,000 a.f.

The Fryingpan project would take 84,000 a.f. of that remainder. After that, there are proposed several others which have powerful support in Congress and in the Interior Department.

The largest of these is the Gunnison project, which would take 600,000 acre feet.

Denver wants 177,000 from the Blue River diversion, and there is a Blue River - South Platte project with another 270,000. The total of proposed and already promised water would be something like 1,500,000 a.f. So it is clear that there simply is not enough water to go around.

Barnard is especially doubtful of the Denver demand which would, if allowed, give that city and metropolitan district two-and-a-half times its present needs.

The Fryingpan project is opposed, therefore, as the opening wedge of a drive which would prostrate the agriculture and frustrate the possibility of industry for the future in western Colorado.

There also is the matter of subsidies for agricultural land on the eastern slope. Barnard estimates that under the Fryingpan project the taxpayers and power users would be giving the irrigators subsidies of $1,730 an acre.

•:•

**FROM OTHER** sources I have learned that land in that region raising the sort of crops contemplated would be worth somewhere between $150 and $200 an acre.

Since the taxpayers are now paying subsidies on food surpluses, the public should view with caution the development of new land with new food that we cannot use.

John B. Barnard has, it seems to me, struck a blow not only for his people on the westwern slope, but for every taxpayer in the nation. It remains to be seen whether Congress will agree.

# Space Platform Practical?

### By MARK DANA

The eminent Dr. Lyman Spitzer Jr., professor of astronomy at Princeton University and director of the Princeton Observatory, has added scientific legitimacy to the idea of a "space platform" set up some 500 miles above the earth which for long has been realistically familiar to juveniles who devour "space comic" publications.

It has been a fascinating fantasy, just like the trips to Mars and the moon played up persuasively neo-scientific magazines, and less publicly toyed with by reputable astronomers.

Dr. Spitzer actually predicts that "within a few decades" there will be such space platforms, and if they will suffice for scientists in studying the celestial system without being hampered by the ray-screening atmosphere close to the earth they should be just the thing for space travelers as a sort of depot.

Small boys, and persons neither small nor boys, who for many months have been impatient for certain experts to put into effect what other "authorities" have described and even tantalizingly illustrated, may have to be patient a few more decades.

Yet it took practical men many decades to build the submarine which Jules Verne created in his fancy for "Twenty Thousand Leagues Under the Sea," and as for fulfilling the dream going back to the cave man days — the idea of men flying like birds—see how long it took experimenters like the Wright brothers, their predecessors and successors, to make that aspiration come true!

### *Cigaret Maker's Reply*

(Imaginary reply of a cigarette industry spokesman to the Yale research chemists who recently reported that cigarette smoking lowered the life span, especially from 50 to 70.)

Dear Sirs: Well, the tobacco industry has just completed exhaustive tests into the life span of college professors and reached the following conclusions:

1—Men who sing the Whiffenpoof song live longer after reaching 50 if they show restraint in singing it in their younger years. Tests taking in 1,000 Yale men proved that 700 who sang it in moderation between 18 and 35 reached the age of 65 or better, but that 300 who sang it at the drop of a hat on any and all occasions, especially after the age of 40 (putting extra gusto into it) could be written off around the age of 60. Tests of 300 old blues who were cautious enough to cut out one of the "bahs" in the "Bah! Bah! Bah!" phase of the song were in better shape at 55 than they were at "49 bid—50 asked."

2—A careful study of Yale grads of all ages indicated that those who managed to get a hot meal an hour before game time were in better health after 70 than those who packed a cold lunch and ate it in a stiff breeze outside the Yale Bowl on a chilly October afternoon. The sardine and lettuce sandwich is believed to slow up a man after the age of 38.

Of 500 men who partook of thermos bottle double martinis between halves, 498 lived only to make the 65-67 age group. The other two, didn't seem to care much. (Mustard makes no difference except on egg salad.) Nothing slows up a man and shortens his life more than parking his car in the main parking lot at a college football game and trying to find it again after the game in less than two hours.

3—Tests to determine whether "Boola Boola" can do more to shorten the life span if done to excess than "Bulldog, Bulldog" are still going on. It can be definitely stated, however, that for a Yale man to sing "Fair Harvard" anywhere can knock 20 years off his life.

•:•

The tobacco men of America are moved by your report but await a verdict from Yale and Harvard. In case of a tie they will play Duke University. In the meantime they are as alarmed as anybody over the possibility that the cigarette is harmful and will spend millions to make it safe. If they have a feeling the cigarette industry is being belted around too heavily, you will please try to understand it.

To all researchers the frank answer of the tobacco industry is, "This thing is bigger than both of us." And in that spirit the cigarette industry will co-operate to the fullest. All it asks is a fair play.

Sincerely
J. Gotta Light

# Mary Hastings Becomes Bride of Donald Burkey

The Presbyterian Church at Marseilles was the scene of the wedding of Miss Mary Hastings, daughter of Mr. and Mrs. S. S. Hastings of LaRue, and Donald Burkey, Saturday afternoon, June 26. The bridegroom is the son of Mr. and Mrs. Fred Burkey of Youngstown.

White gladioli and carnations, and lighted tapers in seven-branch cadelabra decorated the altar for the 3:30 o'clock ceremony read by the pastor, Rev. B. H. Smallwood. Family pews were marked with bows of white satin ribbon. A half-hour program of wedding music was by Homer Brown, organist, and Charles Hastings, brother of the bride, vocalist. The couple repeated the double ring ceremony.

—:—

**ESCORTED TO** the altar by her father, the bride wore a princess gown fashioned with a fitted bodice of white taffeta and bouffant skirt of white nylon tulle. Point de Lyons lace embroidered with sequins and seed pearls outlined the off-the-shoulder neckline and tiny buttons fastened the back of the bodice. Her finger-tip veil of French illusion was held by a coronet of lace, sequins and seed pearls and she carried white carnations centered with a purple throated orchid. Her pearl earrings and single strand of pearls were gifts from the bridegroom.

Mrs. Charles Hastings, sister-in-law of the bride, was the matron of honor and Miss Ruth Burkey, sister of the bridegroom, was bridesmaid. They wore identical gowns of sea blue nylon tulle and lace over taffeta. Over their formal bodices they wore shoulder capes of nylon tulle edged with venice lace and the full floor-length skirts were of nylon tulle and lace. Their colonial bouquets of white carnations were accented with blue and white satin ribbons and they wore arrangements of the same flowers in their hair.

—:—

**ANNA AND NANCY HASTINGS** nieces of the bride, in sea blue nylon tulle dresses styled like the other attendants, were flower girls. They wore white carnations in their hair and carried miniature colonial bouquets. Ringbearer was Charles Burkey Jr., nephew of the bridegroom.

Charles Burkey served as best man for his brother and ushers were Calvin Topliff and Robert Barrow, cousins of the bride and bridegroom respectively.

The bride's mother wore a lace dress in a blue delphinium shade and white accessories, and the bridegroom's mother was costumed in an aqua lace dress and wore white accessories. Their bouquets were white carnations.

Mrs. Donald Burkey

The reception for 150 guests was in the social rooms of the church. The table was centered with an eight-tiered wedding cake decorated with a white trellis entwined with ivy and a miniature bride and bridegroom. Blue and white predominated in the setting and decorations. Assisting were Mrs. Floyd Topliff, Mrs. Janice Kauble, Miss Frances Sommet, Miss Mary Louise Trautwein and Miss Ethel Wente. Music during the reception was by Miss Dorothy Glenn, pianist.

When the couple left on a wedding trip the bride was wearing a gabardine suit in an aqua shade, white accessories and the orchid from her wedding bouquet. They will make their home at 84 Hilton Ave. in Youngstown.

—:—

**THE BRIDE WAS** an instructor of music in Lincoln Junior High School at Newark and also director of music at Central Church of Christ in that city. The bridegroom is associated with the Bell Telephone Co. at Youngstown.

Guests were from Bloomington, Ind., Newark, Youngstown, Clyde, Upper Sandusky, Toledo, Kenton Marion, LaRue, Bellefontaine, Dayton and Prospect.

The rehearsal party was at the Hastings home on Friday evening and at that time Miss Hastings and her fiance presented gifts to their attendants.

# Miss Carey Is Married to A. H. Seiple

The marriage of Miss Gail Yvonne Carey, daughter of Mr. and Mrs. O. G. Carey of Hornell, N.Y., former residents of Marion, and Adelbert H. Seiple Jr., took place Saturday, June 26, in Warren, O. The bridegroom is the son of Dr. and Mrs. A. H. Seiple of Warren.

The ceremony took place at 1:30 o'clock in the afternoon in the outdoor chapel of the First Methodist Church with Rev. George Flint officiating. Decorations on the altar were baskets of white summer flowers. Only the immediate families were present for the ceremony.

Given in marriage by her father, the bride wore a powder blue suit with white accessories and her flowers were white orchids.

Miss Phyllis Huffman of Marion, college roommate of the bride, was her only attendant. She wore a shantung suit in a light blue shade and carried a nosegay of summer flowers.

David Seiple served as best man for his brother.

A small reception for the immediate families was held at the home of the bridegroom's parents after which the couple left on a wedding trip to Montreal and Quebec, Canada. They will make their home with the bridegroom's parents until he reports for active duty in the U. S. Air Force in August.

Mrs. Adelbert H. Seiple Jr.

The bride attended Ohio Wesleyan University where she was affiliated with Kappa Kappa Gamma and Alpha Kappa Delta sororities. The bridegroom was graduated recently from Ohio Wesleyan University where he was a member of Tau Kappa Epsilon fraternity, Phi Beta Kappa and Alpha Kappa Delta, national sociology honorary.

# VFW in Ohio Would Require History Course

COLUMBUS, Ohio (AP)—The annual encampment of Ohio Veterans of Foreign Wars will work for adoption of a law requiring certain "basically fundamental and traditionally sound courses of instruction" in all Ohio public schools.

A resolution calling for such a state law was adopted yesterday by the 34th Ohio VFW encampment here.

State Commander Joseph H. Rice of Crestline said the purpose of the resolution was to make compulsory the teaching of American history in Ohio schools. His resolution referred to courses required by law prior to 1943, which he said should be required again.

In other resolutions the Ohio encampment proposed steps be taken to effect minimum pensions for war widows and bonuses for Korean vets, urged support of World Neighbors, Inc., and urged an extension of time for collection of bonuses by World War II veterans.

The encampment heard State Sen. Lowell Fess say he is seeking an investigation of alleged Communist infiltration at Antioch College in his hometown, Yellow Springs.

Fess said he will not rest "until every Communist, Socialist, Red, Pink and Leftist is driven out of Antioch College, Yellow Springs and the Dayton area."

Antioch College has issued a formal statement from retiring President Douglass McGregor categorically denying that anyone or any organization at Antioch is Communist influenced.

## One-Time Queen Of Underworld in Dallas Dies at 56

DALLAS (AP)—Maud Lynch, queen of the Dallas underworld and pickpocket deluxe back in prohibition days, is dead.

Maud died last night just 15 minutes after she reached a hospital after she had been found ill and half-paralyzed in a cheap walk-up hotel. She was 56, broke and alone. Doctors said she apparently had suffered a stroke.

A petite young woman with dark chestnut hair, her trademarks were swank black limousines and white furs back in Texas' roaring 20s and early 30s. She amassed a fortune, police and newspapermen said, as a prostitute, shoplifter and pickpocket.

She wore diamonds worth thousands of dollars—and often pawned them if she needed a quick dollar for a down-and-out old pal, man or woman.

Veteran policemen remember her in the 20s as a nimble-fingered pickpocket who stole from many a wealthy customer, lured into her big car by her apparent affluence and genuine beauty.

She had a horror of riding to jail in a patrol wagon. Maud dodged it hundreds of times by simply surrendering at headquarters to inquire if her male victim had complained. Her scandal-shy victims rarely appeared against her in court.

## *Puerto Ricans Sought on Road Traveled by Ike*

JERSEY CITY, N. J. (AP) — An abandoned 1940 automobile was found by police here yesterday, shortly after Maryland state police sent an alarm that the occupants were believed to be Puerto Ricans and possibly connected with the Nationalist movement on that island.

The car had been seen on U. S. 240 in Maryland, "near a construction area," a later message said.

President Eisenhower was to travel that route on the way to his weekend retreat in western Maryland, it was reported.

The presidential party instead went to the Catoctin Mountain retreat via Leesburg, Va., entering Maryland at Point of Rocks and proceeding then over U. S. 15 through Frederick.

Maryland state police said any connection between the pickup request for the New Jersey car and the President's routing could be "surmised."

But White House officials with the presidential party at Camp David denied the route was modified because of the reported Puerto Rican car.

Duncan Hines

Dozens of busy housewives look forward to their Sunday dinner with us. Their husbands and the children love mother's food, but Sunday dinner is always a pleasant experience. Here they meet friends, they are served promptly by our very efficient waiters, and father doesn't have to worry about the cost of one meal or a dozen. Why? Because on the average it costs no more to dine with us than to buy the food for home consumption.

# County Man Wins $60,000 In Traffic Case

A Union County Common Pleas Court jury at Marysville awarded a $60,000 verdict Thursday to Jesse Salyer of near Waldo, against Oyler Brothers, Inc., a Canton trucking company.

The action grew out of an automobile - truck collision Jan. 25, 1952 about four miles south of Marysville on Route 4. Salyer contended a truck owned by the Canton firm was parked on the highway without lights when he struck the truck.

Salyer suffered a broken knee cap, broken ribs, punctured lung, broken arm, dislocated collar bone, and multiple cuts and injuries. At the time of the accident, he was a construction superintendent for the Knowlton Construction Co. of Bellefontaine, working on a factory building in Springfield, and was returning to his home

Court attaches at Marysville reported that this was the largest personal injury verdict ever awarded in Union County.

Salyer was represented by the Marion law firm of Donithen, Michel and Davis, while the defendant company was represented by the law firm of Knepper, White, Richards, Miller and Roberts of Columbus, and Luther Liggett of Marysville.

all be open on regular hours both Sunday and Monday. Included are Crystal Pool just north of Marion, and pools at Kenton, Mount Gilead, Bucyrus and Upper Sandusky.

In the way of sports events, a Jack and Jill golf tournament is planned at the Marion Country Club Sunday. Stock car racing will be in the offing at nearby speedways.

On Sunday, most churches in the city are planning special Independence Day services.

In neighboring towns and villages special events are planned for either Sunday or Monday.

—:—

**AT PROSPECT** the annual Playground Field Meet will be held at 1 p.m. Monday. It will be included as a part of a community celebration which will include tournament, games, concessions, and a fireworks display in the evening. It will begin at noon and end shortly after 10 p.m. with the fireworks display.

At Galion, the celebration will also be held Monday and will be climaxed with a fireworks display set for 10 p.m. The day's festivities will start at 11 a.m. with an ox roast, and will continue through the day with various sports and entertainment events including ball games and a wrestling match.

—:—

**IN NEW BLOOMINGTON**, the celebration is being held today and will include a fireworks display at 10:30 p.m. tonight. It will start with the serving of homemade ice cream, cake and pie at 6 p.m. It is sponsored by the village's volunteer firemen and will be held at "The Four Corner's" south on Route 95.

Marion theaters and nearby drive-ins will have a wide variety of films for holiday movie goers.

Playing at the Palace will be "Johnny Dark" starring Tony Curtis, Piper Laurie and Don Taylor and "Captain Kidd and the Slave Girl" with Tony Dexter and Eva Gabor.

The Ohio will show "Demetrius and the Gladiators" starring Victor Mature and Susan Hayward.

"The Great Sioux Uprising" and "Paris Playboys" top the play bill at the Marion.

The State will show "Taza, Son of Cochise" and "Killer Ape."

At the North Drive-In, the feature will be "Stalag 17" starring William Holden, Don Taylor and Otto Preminger.

Playing at the South Drive-In will be "The Naked Spur" with James Stewart, Janet Leigh and Robert Ryan.

S-SGT. JAMES A. LEROW (left) is shown welcoming M-Sgt. Frank E. Lockman to his duties at the Marion recruiting station on the second floor of the courthouse.

Effective Friday, the recruiting service for the U. S. Army and the U. S. Air Force was divided, with Sgt. LeRow assigned to process Air Force recruiting, and Sgt. Lockman assigned to Army recruiting. Until this time Sgt. LeRow had been handling recruiting for both branches.

The two men will occupy joint offices and share equipment while processing enlistments for their four-county area composed of Marion, Delaware, Morrow and Crawford Counties.

# Bucyrus Area Man Killed in Farm Mishap

BUCYRUS — John P. Spiegel, 24, of five miles northwest of Bucyrus, was found dead about 6 p.m. yesterday after he had fallen through the floor of the haymow in the barn at his home.

His head had struck an iron rod protruding from farm machinery, and he was killed instantly. Dr. B. P. Mansfield of Galion, Crawford County Coroner, said death was caused by a "penetrating wound at the base of the brain."

The body was discovered by Neil Spiegel, his father, after a neighbor had noticed the tractor motor had been running in the barnyard for a long time and called his father.

Born Oct. 4, 1929, in Holmes Township, a son of Neil T. and Alma Dobbins Spiegel, Spiegel was a U. S. Army veteran, discharged in 1951. He was a member of the Bucyrus unit of the Ohio National Guard which leaves tomorrow for a period of training at Indiantown Gap, Pa. He was graduated from Holmes-Liberty High School in 1948, and was a member of Harmony EUB Church northwest of Bucyrus. Oct. 22, 1950, he married Avonelle Bordner.

Surviving are his widow, his parents, and two sisters, Mrs. Martha Jane Carpenter of Dunkirk; and Mrs. Ruth Hancock of Bucyrus. A brother, Randall, 19, was killed in an automobile accident near Upper Sandusky March 17, 1952.

Funeral services will be conducted Monday at 2 p.m. in the Wise Funeral Home in Bucyrus. Rev. A. E. McVey will officiate. Burial will be in Brokensword Cemetery. Friends may call at the funeral home tomorrow afternoon and evening.

to the center of the nation's capital.

The nation's first family—President and Mrs. Eisenhower—will not be in town to see the sight. They plan a quiet holiday weekend at Camp David, the presidential retreat in the Catoctin Mountains of Maryland.

Vice President Richard Nixon will be among the holiday orators. Today he goes to Somerset, Pa., to take part in the town's sesquicentennial celebration.

Another celebration in western Pennsylvania will mark the 200th anniversary of the Battle of Ft. Necessity near Uniontown, Pa., which opened the French and Indian War. The speaker there will be Gen. George C. Marshall.

On the other side of the country in California a huge firework display will be touched off Sunday at the 103,000-seat Los Angeles Memorial Coliseum. The next day another big show will be staged at Pasadena's Rose Bowl where 80,000 are expected.

At Flagstff, Ariz., more than 12,000 of July celebrations are rodeos and cowboy reunions.

At Flastaff, Ariz., more than 12,000 Indians were in town for three nights of ceremonials and pow-wow rituals.

Independence Day ceremonies in Detroit, Mich., recall the most recent war in which American soldiers have fought. The city will present to Korea a 40 car train loaded with relief and rehabilitation supplies. Tyo Wook Han, Korea's minister plenipotentiary to the United States and delegate to the United Nations, will accept the "train for Korea" gifts, which range from aspirin tablets to trucks and tractors.

ernment chief until the junta elected a permanent head in 15 days.

It was not known whether Monzon also planned to return to the Guatemalan capital today.

Both colonels were expected back yesterday, and Guatemala put on a big fiesta to welcome them. The celebration, starting out gaily with popping fireworks and clanging church bells, fizzled out as the two men failed to show up.

Castillo flew back to Chiquimula to explain the San Salvador settlement to his disappointed aides and prepare his troops for entry into the capital.

He told reporters in Chiquimula his top subordinates had wanted to push ahead with the rebellion until the Guatemalan army surrendered unconditionally. He said, however, he was satisfied with the settlement ending the two-week revolt because it was victory over the Reds.

"I am entirely sure," he added, "the junta will eliminate the Communists."

Castillo expressed confidence his followers "all will stay with me" although the conference with Monzon "was not entirely decisive." The rebel chief said he would keep his troops in readiness until "we make arrangements" on the political front.

Still to be resolved was the question of whether Castillo or Monzon would wield top power. Besides the two leaders, hte five-man junta includes one member of Castillo's insurgent government and two from Monzon's regime. Junta decisions will be by majority vote.

This would appear to give Monzon the upper hand. It was speculated however, that Castillo hoped to swing a majority to his side in the two weeks before a permanent gvernment head is selected.

## Sailor on Leave Dies In Ohio Auto Accident

CAMBRIDGE, Ohio (AP)—Roger D. Ross, 22, of Milwaukee, Wis., died today of a skull fracture in an automobile accident on U.S. 40 near here.

Ross and two companions, all of the U.S. Navy, were driving home on a holiday pass when the car hit a ditch and rolled over four times, the state highway patrol said.

In St. Francis Hospital here were Richard Zembel, 21, the driver, of St. Paul, Minn., and Leroy Westermeyer, 20, of Wheaton, Minn.

The intergovernmental Committee on European Migration, successor to the post-war International Relief Organization, proposes that 5,000,000 Europeans be moved to "labor-short" countries in the next 10 years.

# Four Accidents Reported by Police, Patrol

Four minor accidents were reported today by law officials in Marion County, as the Independence Day weekend began. City police reported three accidents, all involving damage of less than $100.

The lone accident reported by state patrolmen from the Marion post happened on U. S. Route 23, just south of its intersection with State Route 4, north of the city at 9:20 p.m. Friday.

Patrolmen report a car driven by Mrs. Freda B. Carpenter of 207 N. Main St. was damaged when struck from the rear by a car driven by Scott Z. Richards, 36, of Dayton.

Mrs. Carpenter told officers she was stopped for traffic in front of her. Minor damage was reported to the rear of the woman's car while moderate damage was done to the left front of Richards' vehicle.

Richards was cited to appear in Municipal Court for failure to stop within the assured clear distance. No date for his appearance has been set.

# Wages Remain Chief Issue in Power Strike

Wages today remained the major stumbling block to an agreement between the Ohio Edison Co. and workers of the Utility Workers Union of America in contract talks being held in Akron, a union official reported today.

Negotiations are to be resumed at 3 p.m. this afternoon in an effort to end a strike of power workers, which is now in its third day. Some 2,400 workers have been idled throughout the state by the walkout.

A major point of disagreement was erased last night as the company agreed to retain a clause which would prohibit the company from bringing in outside contractors to do employes' work, without the consent of the union.

Union and company representatives are meeting in Akron with 11 mayors from eastern Ohio cities affected by the strike. The meetings are being held in the city building of Akron, with about 15 union representatives and four or five Edison Co. officials.

Representing the union from Marion are John Curry, president of Local 353 and Calvin Topliff.

About 50 workers at the Scioto Power Plant are out on strike. Service is being maintained here and elsewhere in the system by supervisory personnel.

Topliff said this morning the main block to agreement now was the wage issue. The union is asking for a 16-cent-an-hour increase. He said the company has made no counter-proposals.

He said from the way the meetings went last night, the two parties were not too far apart in their talks. He hoped an agreement could be reached before Monday.

Minor adjustments in the insurance agreements of the contract must also be worked out, but Topliff said they should not present too much of a problem.

# Youth Fined $100 For Gasoline Theft

Joe Hudkins, 18, of 769 N. State St., charged with theft of gasoline valued at approximately $25 from a Marion County farm and with contributing to the delinquency of a 15-year-old companion, was fined $100 and costs in Juvenile Court Friday afternoon.

Unable to pay the fine, he was placed in the county jail.

The 15-year-old boy will appear next Friday in Juvenile Court to answer charges of his complicity in the gasoline theft from the Harry Brewer farm north of Marion early Friday morning. He was released in his parents' custody.

Despite the fact that they are icebound four months of the year, the Soo Canals of Sault Ste. Marie, Michigan, carry more cargo than the Panama and Suez canals combined. Eighty-five per cent of American iron ore passes through the Soo locks in Michigan.

Planes Hop Rio Grande

# Food Flown to Mexican City Devastated by Flood

EAGLE PASS, Tex. (AP) — Food, truckloads of it, was flown across the Rio Grande today to flood-wracked Piedras Negras, Mexico, where at least 38 persons died in the river's roaring waters this week.

Official authority for taking the food into the misery-laden Mexican town of 38,000 persons opposite here came yesterday. Earlier, helicopters had lifted food and clothing into the town on an unofficial basis, simply because the people needed it.

Today the American Red Cross was using three light planes to help shuttle four truckloads of canned goods and 150,000 tortillas across the river. Tortillas are thin, round cornmeal "cakes," Mexico's bread.

Meanwhile, up the river at Del Rio, Mexican officials had crossed over from Ciudad Acuna to tell the U. S. Relief Committee that no more food was needed from the Texas side of the river.

The death toll at Piedras Negras still stood today at 38 known dead and 90 known missing. That made a total of 62 dead in the floods that swept 300 miles of the Rio Grande and much of its West Texas watershed since last Sunday.

The greatest, most devastating flood in the river's long history had filled the new Falcon International Dam's great reservoir. Falcon Lake, to half capacity, a little more than 2,000,000 acre feet. Water was 114 feet deep at the dam and covered 9,000 acres at last report. Water had backed up 40 miles in the gigantic new lake.

Typhoid inoculations continued along the river in both American and Mexican towns. Utilities gradually were being restored.

About 1,000 persons still lived in shelter areas in Laredo because their homes were destroyed or damaged. On the Mexican side, hundreds still camped in the hills.

The river continued to fall yesterday from a level of 11 feet where it had dropped from Thursday's record crest of 62.21 feet.

# Traffic Cases in Court

Marion Municipal Judge W. Dexter Hazen assessed eight drivers fines totaling $205 when they pleaded guilty to various traffic charge in Municipal Court Friday.

Largest fine was levied against James H. Barnard, 45, of near Marion. Charged with hit-skip driving, he was fined $100 and costs, $50 of which was suspended. His driver's license was suspended for three years.

He was accused of leaving the scene of an accident June 27 when his car collided with an auto owned by Charles Dunn, 26, of 571 Herman St. and parked in front of 835 N. State St.

Another driver charged with speeding lost his driver's license for 30 days and was fined $15 and costs. He was John T. Wood, 25, of Crestline.

Other dispositions were:

Speeding: Don F. Wilson, 18, of Ervin, Tenn., $15 and costs; Thomas J. Vlachos, 28, of 263 Columbia St., $15 and costs, and Gaylord E. Gary, 23, of 487 Osgood St., $15 and costs.

Miscellaneous: Nelson E. Clingler, 27, of near Edison, no muffler, $15 and costs; and Fred E. Dowler, 50, of Twin Oaks Trailer Park, no safety chains, $15 and costs.

## District Traffic Cases

Eleven motorists were arrested on highways outside Marion County by state patrolmen from the Marion post Friday as they began a vigorous campaign to prevent accident by rigid enforcement of traffic laws.

Five of those arrested were taken before Mayor Don Healea of Cardington where they were fined for their offenses. Those motorists, the charge and an amount of fine follow

Gary D. Bottemer, 18, of Fairview Park, crossing a yellow line, $15 and costs; Paul E. Bolinger, 22, of Cleveland, crossing a yellow line, $10 and costs; Clifford Smith, 41, of Alliance, passing at an intersection, $10 and costs; Leroy F. Bright, 47, of Columbus, unsafe operation, $20 and costs; and Harold Wolfington, 28, of Beach Grove, Ind., speeding, $15 and costs.

Taken before Mayor Emery Murphy of Mount Gilead were three motorists:

James T. Groves, 34, of Louisville, Ky., no mud flaps, $25 and costs; Robert L. Horton, 25, also of Louisville, crossing a yellow line, $10 and costs; and James H. Carpenter, 21, of Mansfield, no muffler, $5 and costs.

Vaud Williams, 47, of Cleveland, was fined $10 and costs by Mayor Ted Anderson of Ashley for crashing a red light in Ashley. Ruth E. Levering of Cardington was cited to appear before Mayor Healea July 7 for crossing a yellow line.

make every effort to get at least part of the House relief restored, because "they think this is the most vital part of the bill."

George told a reporter he believed a likely outcome was restoration of the 5 per cent credit along with the $50 exclusion.

Democrats charged in the debate the section would be of benefit mainly to the wealthy. Republicans replied that it was a needed stimulus to get more capital for business through stock sales, and also would partially end what they termed double taxation resulting from taxes on both corporate profits and on the income of stockholders who are paid those profits.

## Students Will Discuss Marion Civil Defense

"What Can Be Done To Improve Civil Defense in Marion," will be discussed Sunday on Marion Youth Forum. Five students will be members of the panel, heard over WMRN at 3 p.m.

Julia Gorman will moderate the panel, composed of Joan Neidhart, Marlene Davis, Murray Leeper, Bob Knachel and Jay Isaly. Isaly.

The great Rift Valley, an unexplained gash in the earth's surface, extends from Lake Victoria in Uganda, through Ethiopa to the Dead Sea and can be traced still farther north.

# Employe Meeting Held by Workers At McMillen Plant

The monthly employe steak dinner meeting for McMillen Feed Mills was held Thursday, at the Shangri-La restaurant.

Following the dinner, a round table discussion was conducted by plant manager, R. W. Fay. Al Ginther of the financial and development committee of Central Soya Co., Inc., commented on the interdependence of the different plant departments. Also discussed was the importance of quality control and keeping products up to high standards.

Present were Joe Cafagno, Charles Oiler, Sam Blanton, Eugene Ruppart, Vernon Chapman, Sol Bridenstine, Art Gruber, Walter Bridenstine, John Middleton, Robert Sittler, Troy Fennig, Al Andrews, Dick Brooks, Nancy Clarke, Martha Thompson, Hillis Brown, Fay, and Tim Wyant. Guests included Ginther, Max Kernan, and Bob Miller.

## Boy Bitten by Dog

A six-year-old Marion boy is reported "recovering satisfactorily" today from dog-bite wounds suffered earlier this week.

Robin Snyder, son of Mr. and Mrs. John T. Snyder of 301 Belmont St. was bitten on the right arm, leg, on the nose, and near the right eye about 2 p.m. Wednesday while playing in a yard at 338 Belmont St. Police reported the dog was owned by Benjamin Cooper of 338½ Belmont St.

# Rainy and Hot Weather Seen Over Weekend

By The Associated Press

Rainy and fairly hot weather was the outlook today for wide areas in the eastern half of the country.

The hot weather showed no break over most of the Southland. But there was a little cooling in mid-continent areas after thunderstorms hit sections from the Rockies to the Atlantic Coast.

It was 90-plus temperatures again yesterday across the southern half of the nation with readings in the 90s extending as far north as southern Nebraska across the southern tip of the Great Lakes and to the New York area.

It was above 100 degrees in some parts of southeastern Colorado, Kansas, Missouri and southeastern Nebraska. Cloudy skies and rain brought cooling to the northern Great Lakes region and the Northern Plains. Generally pleasant weather prevailed in the northeast and northwest sections of the nation.

Heaviest rainfalls were from the Dakotas eastward over the Great Lake with amounts ranging from ¼ to nearly one inch.

# Search by Posse Fails To Locate Missing Woman

A five and one-half hour search Friday by a 13-man posse, covering a 10-mile area of fields, streams, and woods, failed to turn up Mrs. Lunas Johnson, missing from her Marion County home since Wednesday evening.

The posse was not called out again this morning while investigating deputies from the Marion County sheriff's office were checking out a new lead. They said that a daughter reported this morning that she found a note from her mother telling her that she was all right

Mr. Johnson told the sheriff's office Thursday afternoon that he last saw his wife at their home four miles southeast of Marion on the Richland Pike Wednesday evening. At that time she was wearing a white blouse and a black skirt, he said.

She is 5 feet 3 inches tall, weighs 156 pounds, is 38 years old, and has brown hair and blue eyes.

# Public Health Group Plans Drive for Funds

A campaign to sell "shares" in daily health will be launched in Marion and throughout Ohio beginning next Tuesday.

Sponsored by the Ohio Public Health Association, Inc., the campaign is to raise funds needed for the many activities of the association.

"We can guarantee dividends in safe drinking water, safe swimming facilities, expanded visiting nursing programs, better preventage medicine, and in many other ways in which the public health departments serve Ohio citizens," said Mrs. Dorothy Royce, RN, president of the OPHA.

The 1,000 members of the association are called "the strangers who guard your health," she added.

"For the most part the association is composed of professional public health workers who are constantly trying to make Ohio's health better," she explained.

Health commissioners or officers and their staffs in 159 health districts in Ohio will have "Share the Health" certificates to be sold at $5 a share beginning July 6.

The Marion city health department has received 25 of the certificates and anyone wishing to obtain one will be able to do so by contributing $5 for each share.

# Burke and Bricker Agree on 4 Issues

WASHINGTON (AP)—Ohio senators Bricker (R) and Burke (D) were together on four issues that came up for vote in the Senate yesterday. All of the issues passed or were defeated by large majorities. Here is how they voted:

On a motion to send the tax bill back to the finance committee with instructions to write in a general tax cut for individuals, defeated 62-15: Bricker and Burke, against.

On a measure to send to a conference with the House a general tax revision bill, passed 63 - 9: Bricker and Burke, for.

On an amendment to extend all present tax provisions for one more year, defeated 58-15: Bricker and Burke, against.

# Lopez Hopeful After Indians Beat White Sox Twice

## Manager Calls Cleveland's Pennant Possibilities Good

CLEVELAND (AP) — Cleveland Manager Al Lopez, the kind of guy who saves pennant predictions for the last week in September, now cautiously admits his Indians are "in good shape."

The Tribe's twin triumph over the Chicago White Sox last night, 3-2 and 5-4, gave them a 4½-game edge over the now second-place New York Yankees. None of Lopez's three previous Cleveland clubs has had so much so late.

"We're usually in trouble about this time, and here we are higher than ever," the Senor said. "June usually was a bad month for us."

This June the Indians won 20 and lost nine, and their double victory last night assured them of first place through Sunday, July 4th.

While the Indians ride high, the White Sox are hurting from the loss of two infielders good enough to be All-Star voting runner-ups—third baseman George Kell and first baseman Ferris Fain.

Kell tripped on first base in the fourth inning of last night's opener, twisting ligaments in his right knee. He may be sidelined until after the July 13 All-Star game.

Fain, 10th ranking hitter in the league with a .302 average, did not make the trip here because of a knee bruise received in Chicago last Sunday. In this instance, getting Phil Cavarretta recently proved wise insurance for the White Sox. The National League veteran, who will be 38 July 19, is in a hot hitting streak and out-hit all his teammates last night with three singles and a double in seven trips.

Bob Lemon was to hurl tonight, but his injured side hurt after a pre-game warmup, so Art Houtteman (8-4) will go against Sandy Consuegra (10-2). Lemon may pitch the series finale Sunday.

It has been the work of pitchers like Houtteman and Bob Feller, whose four-hitter won last night's opener, that has put the Indians where they are.

Larry Doby was the big noise in the Tribe offense last night, hitting a game-tying homer in the sixth inning of the first game, driving in the second run with a single in the eighth and clouting his 13th homer with two on in the second game.

Chicago's two runs off Feller in the opener came on homers. Chico Carrasquel hit Feller's third pitch of the game over the left field fence, and Orestes Minoso led off the ninth by hitting his 12th round-tripper. Consecutive singles off loser Virgil Trucks in the eighth by Al Smith, Bob Avila, Doby and Al Rosen scored Cleveland's other two runs.

In the second game, Early Wynn's ninth victory against six losses, the White Sox had eight hits to the Indians' seven. Again Chicago was off to a 1-0 lead when Minoso walked, stole second and scored on Cavarretta's single in the first inning. But Don Johnson ran into trouble in the fifth by walking two men. One scored on Avila's double and Doby he homered.

## Persley To Battle Khalfi in TV Bout

ATLANTIC CITY, N. J. (AP)—Clever Art Persley, seeking to get back in the running for a lightweight title shot, is a 1-2 favorite to make France's Hoacine Khalfi his fifth straight victim tonight when they clash in a 10-round television bout.

The 8 p. m. EST, scrap will be held in the Convention Hall ballroom with ABC telecasting the show coast to coast.

Persley, of Red Cross, La., has a ten runder t Cub's Orlandoo won four in a row since he dropped a ten rounder to Cuba's Orlando Zulueta 11 months ago.

Khalfi grabbed the spotlight May 17 when he upset featherweight champion Sandy Saddler in a TV ten rounder for his first U.S. triumph.

## *'Little Mo' Winner at Wimbledon*

WIMBLEDON, England (AP) — Maureen Connolly of San Diego, Calif., won the Wimbledon woman's singles title for the third straight year today by defeating Louis Brough of Beverly Hills, 6-2, 7-5. Miss Brough also is a three-time winner of the Wimbledon crown, reigning in 1948-49 and 1950.

It was the ninth straight year that an all-American final was presented in the women's singles division of the famous meet.

Jaroslav Drobny, wandering Czech who now calls Egypt his home, won the men's singles title yesterday by defeating Ken Rosewall of Australia. Seven Americans and three Australians are scheduled on today's program, final of the 1954 championships.

Miss Connolly, who has indicated that she may pass up future Wimbledons because of her coming marriage, played methodical rather than spectacular tennis today.

Australia's Rex Hartwig and Mervyn Rose play Vic Seixas of Philadelphia and Tony Trabert of Cincinnati in the men's doubles while Rosewall and Mrs. Margaret DuPont of Wilmington, Del. meet Seixas and Doris Hart of Coral Gables, Fla. in the mixed doubles.

In the women's doubles Miss Hart and Shirley Fry of Akron, Ohio, winners the past three years, take on Miss Brough and Mrs. DuPont.

## 776 Children Participate in Park Activities

A total of 776 children participated in activities this week at Lincoln Park, Marion recreation director Walker Huffman announced today.

Over 100 children took part in the arts and crafts program, under the direction of Miss Cora Jane Lehner. Chief arts and crafts activities were lanyard making, water color painting and clay modeling.

Paul O'Rourke, tennis instructor, reported a fine turnout in tennis at the Harding courts. O'Rourke, who gives instructions at the high school courts on Tuesdays and Thursday from 9 a.m. to noon said there are a few more vacancies for instruction. Interested youths should report to the courts next Tuesday at 9 a.m.

Lincoln Park's Athletics, played Shanty Town Wednesday evening and won 14-1. Johnny Chaffins pitched three-hitter while Stanley Mooney, Charles Mories and Dick Kohler hit home runs.

Huffman also announced the recreation program will not be held over the weekend due to the holidays. The program will resume Tuesday, July 6.

## *Pony Loop Games Rescheduled Due To Fourth Holiday*

Pony League games have been moved back two days next week due to the July Fourth holiday.

Games will be played Wednesday and Friday, with Monday's scheduled games being postponed.

At the same time, announcement was made that the Teen League schedule would run as scheduled. Marion's Teen League teams are in action on Monday, Tuesday and Thursday nights.

Little League games earlier this week were moved back one night. Games next week will be played Tuesday through Friday.

Monday, Marion's Fraternal Order of Police squad is at Morral and Tuesday, the Marion Indians are at Pleasant in Teen League encounters.

On Thursday, both teams are in action here, Green Camp meeting the Indians and Morral battling the Fraternal Order of Police outfit.

**BESPECTACLED** Jaroslav Drobny, 33-year-old self-exiled Czech, holds the trophy for the Wimbledon men's singles championship after downing Australia's Ken Rosewall. Drobny, oldest Wimbledon winner since Bill Tilden in 1930, wore down the Aussie whiz kid in his 11th and "last" bid for the title. The Duchess of Kent presented him with the coveted cup.

## *Feller May Nab Elusive Victory in World Series*

By BEN PHLEGAR
Associated Press Sports Writer

Bobby Feller may yet get another chance to win a world series game, one of the few triumphs that has eluded him during his brilliant pitching career.

At the ripe old age of 35 the Cleveland righthander, who came off an Iowa farm 19 summers ago with just about the fastest ball the majors ever saw, is proving a vital factor in the Indians' pennant bid.

He doesn't work often any more and when he does he has to rely on craft and wile instead of blazing speed. But he continues to be successful and might very well get the call in a long series. Cleveland has been in only one World Series since Feller joined the club. He lost twice in 1948 to the old Boston Braves.

Last night he turned in his fifth victory of the season, checking the Chicago White Sox 3-2 on four hits in the opener of a twilight night doubleheader. The Indians grabbed the nightcap, too, by a 5-4 margin and dumped the challenging Chicagoans into third place.

"I might have gotten a pasting except for a couple of good breaks," Feller admitted after the game. "I didn't have much of anything except pretty fair control."

Two of the hits against him were homers, by Chico Carrasquel, the first batter he faced, and by Minnie Minoso leading off in the ninth.

But Feller got some vital help from Larry Doby who contributed a 400 foot home run to tie the score in the sixth inning and then singled home the second run in the eighth. Doby was the big gun in the second game as well. His 13th homer of the season came with the score tied and two men aboard in the fifth.

The New York Yankees crept in the side door into second place although they split their 13 consecutive doubleheader. After beating Washington 6-5 in 11 innings they bowed 7-4 to rookie Dean Stone who won his seventh against a single loss. The Yankees haven't captured a twin bill since August of last season.

The New York Giants stretched their National League lead to five full games. They whipped Pittsburgh 9-5 with a five-run rally in the seventh inning and Brooklyn lost its fourth straight, this time 7-6 to the Philadelphia Phillies.

In other National League action Milwaukee beat Cincinnati twice, 11-4 and 2-1 and Chicago edged St. Louis 7-6, the seventh time the Cubs have tripped the Cardinals in nine starts.

Elsewhere in the American League Boston thumped Philadelphia 8-4 and Baltimore used a three-hit shutout by Joe Coleman to turn back Detroit 2-0.

The Yankees' first game victory came after Washington had moved into a 5-4 lead in the top of the ninth. Yogi Berra singled home the tieing run in the last of the ninth and came through in the clutch again in the 11th with a single that scored Bob Cerv with the winning tally. The Yankees found themselves five runs behind after 2½ innings of the second game and couldn't catch up against the Senators.

The Giants and Dodgers, fresh from battling each other for three days, both tried rookie pitchers last night and neither one survived. Ramon Monzant threw three no-hit innings for the Giants in Pittsburgh but had to be yanked during a four-run Pittsburgh rally in the fourth. Dusty Rhodes, who won two of the three games against Brooklyn with pinch hit singles, delivered another single, again as a pinch hitter, to start the Giants' big inning.

Pete Wojey, just up from Mobile, started for Brooklyn and lasted until the fifth in Philadelphia. The big blow for the Phillies, however, was a three run homer by Del Ennis off Clem Labine in the eighth.

Home runs produced the Milwaukee victories. Eddie Mathews hit two in the first game when Henry Aaron and Joe Adcock got one apiece. In the second game Del Crandall's fifth inning homer off Fred Baczewski provided the winning margin. Baczewski gave up only two other hits. Winner Gene Conley limited the Redlegs to four.

Vic Raschi, who had a 6-4 record with the New York Yankees on this date a year ago, now has a 6-4 record with St. Louis. His loss to the Cubs yesterday was his fourth. Home runs by Randy Jackson and Dee Fondy helped lead to the defeat.

Grady Hatton's three-run triple in the eighth gave the Red Sox a comfortable margin over the Athletics but Coleman's shutout enabled Baltimore to stay half a game ahead of the Sox in seventh place.

## *Plans for All-Star Games Announced By Softball Group*

Plans for the annual All-Star games between men under 30 and men over 30 have been announced by the city softball commission.

The commission decided to hold the games on Sunday, July 11, and Sunday, July 18, due to the lateness of the city softball schedule and the district tournament.

Managers of Trinity and Epworth, C & O, McMillen, Erie No. 1 and Smitty's have been asked to be at Smitty's Tuesday at 10:30 p.m. to select players for the All-Star games.

Coxey Weiss will manage the team of men over 30 while Ray Robbins will read the men under 30. The player roster for the game is to be announced later.

## *Babe Leads In National Open Golf*

PEABODY, Mass. (AP) — Babe Zaharias carried a seven stroke lead into the final 36 holes of the Women's National Open Golf Tournament today as she pitted her limited endurance against the other 32 qualifiers.

The Babe had a one under par 71 yesterday for a 143 halfway point total on Salem Country Club's par 36-36—72 course.

The chief threat to Mrs. Zaharias appeared to come from defending champion Betsy Rawls of Spartansburg, S. C., a veteran come-from-behind finisher. Betsy completed her second round with a stong 73 over the testing 6,939 yard layout for a 150.

Mrs. Zaharias' advantage appered prohibitive but by her own admission: "I'm not the Babe of old." Only 15 months ago she was stricken by cancer.

Still, Mrs. Zaharias has shown no signs of weakening and has cracked par for the 36 holes where no one else has come close.

Claire Doran, the Cleveland Junior High School history teacher, dropped to 151 after shooting a 79 yesterday. She had been tied with Mrs. Zaharias for the lead with a 72 Thursday. But she still was the leading amateur, sharing third spot with pro Betty Hicks of Durham, N. C.

Another amateur, Pat Lesser, a pretty brunette from Seattle, Wash., came home with a 73 for a 152.

Mary (Mickey) Wright, the 19-year old Stanford sophomore from LaJolla, Calif. carded 153. Tied with her were national amateur champion Mary Lena Faulk of Thomasville, Ga., and Louise Suggs. Patty Berg and Betty Dodd had 154s.

## Richards Trailing In Decathlon Meet

ATLANTIC CITY, N. J. (AP)—Although he trailed in third place at the halfway mark, the Rev. Bob Richards was expected to steam ahead today and win his second National A.A.U. decathlon championship.

"I think I'll still win," said the 28-year-old Olympic pole vaulting champion after he wound up 289 points behind rangy Jim Podoley of Central Michigan College and 112 astern of 19-year-old Aubrey Lewis of the Kearny (NJ) A.C., last night.

Podoley, a 20-year-old sophomore who won the Kansas Relays decathlon, led the field of 23 with 3,831 points after the completion of the 100-meter dash, broad jump, shot put, high jump nd 400 meter run. Lewis had 3,654 points while the favored Richards compiled 3,542.

Richards, winner in '51 holds a trump ace for the windup—the pole vault. He collected 1,039 points for his specialty last year with a leap of 14 feet, 8 inches.

**BIG CATCHES ON FIRST TRIES**

BOCA RATON, Fla. (AP) — Two New York women, who never had been deep sea fishing previously, caught giant size sailfish on the same day. They were on separate boats. Miss Ingrid Kildegaard landed an 8 foot 2 inch sailfish weighing 76 pounds while her friend, Mrs. Max Phillips, hooked a 7 foot 2 incher weighing 42 pounds. Miss Kildegaard's sailfish was the largest caught at Boca Raton this year.

**PERFECT RIGHT**

NAUGATUCK, Conn. — (UP)— Rebuked for interrupting a speaker at a public meeting, Mrs. William Woermer explained, "It's all right—he's my husband."

## Redlegs Fall to Sixth Place After Losing Two to Braves

MILWAUKEE (AP)—The Cincinnati Reds, who had a good chance to be in the first division today, dropped both ends of a doubleheader to Milwaukee last night and skidded to sixth place.

The Braves used four home runs to fashion an 11-4 victory in the first game and squeezed all they could out of the three-hit pitching of Fred Baczewski for a 2-1 triumph in the nightcap.

It was a tough loss for Baczewski, whose record dropped to 5-5.

Gus Bell, Cincinnati slugger, went without a safety in eight trips to the plate. The Reds could collect only four hits in the second game off big Gene Conley, who now has a 6-3 record.

Again it was the home run—or rather five of them—which spelled defeat for the Reds, who have given up more homers than any other club in the National League. The quintet boosted the mark to 82 for the season.

Joe Adcock started the Braves' home run parade in the fourth inning of the opener. Hank Aaron and Eddie Matthews hit back-to-back clouts in the seventh and Mathews came back in the next inning to slam another, his 16th of the year. Milwaukee scored nine runs in the seventh and eighth.

Up till then, Corky Valentine, the losing pitcher, had limited the Braves to one run besides Adcock's contribution. Valentine was chased in the seventh, but reliefer Joe Nuxhall did not have the stuff and Jackie Collum finished. The late outburst gave Chet Nichols the win.

The Braves broke the 0-0 deadlock in the fourth frame of the second game on Johnny Logan's walk and Aaron's double. Del Crandell brought in what proved to be the winning run in the next inning with his homer into the left-field bleachers.

Bob Borkowski, with a pinch double, drove in Cincinnati's lone run in the eighth after Conley gave up a pair of walks.

## New Bucyrus Sports Arena Work Started

BUCYRUS — A new $150,000 sports arena is now being constructed on the east edge of Bucyrus on U. S. Route 30-N. Present plans call for the building to be completed by late fall or early winter.

A special floor which will permit ice-skating one night and roller skating the following night is being installed in the building, which will seat about 5,000 persons.

W. A. Lutz, present owner of the Lutz Rollerena and a ready-mix concrete plant in Bucyrus, said today he hoped to be able to have some exhibition hockey games in the plant this winter.

He said eventually he wanted to bring in either professional or semi-professional hockey on a permanent basis, but added it would be quite some time before such a move would be possible.

Besides ice and roller skating, the arena will be used for basketball games, rodeos, and other indoor sports. Overall dimensions of the building are 150 by 240 feet with the skating rink to be 80 by 190 feet.

At present, the walls are being put up, with the hope of opening an outdoor dance hall and skating floor this summer. Later in the year, the roof will be installed as well as the freezing plant for ice.

A restaurant, to be known as the Arena Restaurant, will be installed at the front of the building. A parking lot to accommodate 2,000 cars is planned.

The arena is located on a five-acre plot near the Bucyrus Country Club.

## *Florida Youths Challenge for Tennis Crown*

CINCINNATI (AP)—Florida teenagers, hep to tennis, were in a challenging position today to make the men's finals in the Tri-State tennis tournament an all-Sunshine State event.

Three of the five remaining men are from Florida and they have been shining bright on the Cincinnati tennis club courts.

Ed Rubinoff, 19, a sophomore at the University of Miami, advanced to the quarterfinals yesterday by ousting second-seeded Billy Talbert of New York. Talbert, ranked 11th in the United States, had beaten the Miami Beach resident two weeks ago in the Southern men's tourney. But Rubinoff blasted the former national doubles champion, 6-3, 3-6, 6-1, by tiring him out.

Rubinoff engages Sammy Giammalva of Houston, Tex., in the remaining quarterfinal match. The winner will play Jerry Moss, 18, extended to defeat Allen Morris of seventh, defeated fourth - seeded Fred Hagist of Berkeley, Calif., 6-8, 6-0, 6-3, to gain the semi-finals.

Top - ranked Straight Clark of Philadelphia, who was somewhat extended to defeat Allen Morris of Atlanta, 3-6, 6-1, 6-4, will meet the third Floridian registrant, Mike Green of Miami, in a semifinals match. Green, the youngster of the trio at 17, topped John Lesch of Los Angeles, 7-5, 6-0.

## Stock Car Racing To Resume Sunday
